

Eisenhower Is Ready For Compromise Bill

Expects GOP Introduction Of Proposal

President Does Not Spell Out Terms Of New Position

WASHINGTON (AP)—President Eisenhower said today he is willing to accept a compromise civil rights bill which includes effective enforcement of voting rights.

Eisenhower told his news conference he expects Republican House leaders to offer a compromise proposal today or tomorrow.

Eisenhower did not spell out the terms of this proposal. But he said it would represent a position between the one he took originally and the Senate's version of the civil rights bill.

The Senate stripped from a measure recommended by the administration and passed by the House a section under which the attorney general would have been empowered to seek federal court orders to enforce civil rights in general.

In response to a question, Eisenhower said he is not now advocating that any portion of that section be put back into the bill.

The bill has been stalemated in the House, with rival Republican and Democratic groups playing a waiting game. Both groups maintain they want some kind of civil rights legislation, but they disagree on what form it should take.

The Senate adopted amendments confining the bill's enforcement powers primarily to the voting rights field. It also wrote in a requirement for jury trials in all federal court criminal contempt cases.

Eisenhower, who previously has objected strenuously to the jury trial amendment, was not questioned about it today. House Democrats have been urging a compromise which would limit the jury trial requirement to criminal contempt cases involving voting rights.

Pettis County Babies Win the Top Honors At 1957 State Fair

Pettis County babies were the best at the 1957 Missouri State Fair, with all top honors being taken by local babies who were greeted, honored and congratulated by Lt. Gov. Edward V. Long today. In appropriate ceremonies held in the Women's Building, Lt. Gov. Long presented trophies and blue ribbons.

The winners are: Grand Champion Blue Ribbon Baby Girl, Deborah Jyl Rissler, three-year-old daughter of Mr. and Mrs. John W. Rissler, Sedalia, Route 2.

Grand Champion Blue Ribbon Baby Boy, Glenn Elmo Young, three-year-old son of Mr. and Mrs. Elmo H. Young, Hughesville.

Grand Champion Nine Point Girl, ten-year-old Marsha Eding, daughter of Mr. and Mrs. Chester Eding, 921 South Lamine, Sedalia.

Grand Champion Nine Point Boy, Billy Dan Thiemann, 11-year-old son of Mr. and Mrs. William D. Thiemann, Higginsville.

Ike Says Reds Intend To Dominate Syrians

WASHINGTON (AP)—President Eisenhower said today the ultimate aim of the pro-Communist bid for power in Syria is Soviet control of the country.

He told a news conference, however, the U. S. government actually does not know how far the process has gone.

Legislator To Be Called In Libel Case

LOS ANGELES (AP)—The defense in the Confidential magazine criminal libel trial is turning to what its attorneys call public service articles as distinguished from stories of the expose type about individual celebrities.

Atty. Arthur J. Crowley, for the defense, said he planned to call a member of the Georgia State Legislature, John D. Odom, Crowley said Odom wrote "public service" type articles for Confidential.

Biographical material given to newsmen by Odom said he is from Kingsland, Ga., a member of the legislature since 1954, department store and mercantile businessman and writer for national magazines in recent years. It said Odom is currently writing a novel about the occupation of Atlanta in the Civil War.

Defense testimony yesterday included an account by Gloria Wellman, 33, adopted daughter of movie director William Wellman, of how she received \$650 for material for three stories for Confidential.

She identified only one of the stories, a tale about a party she said occurred at the home of actor John Carroll in 1947. She said she was one of six girls there and that the guests included actor Forrest Tucker and the late bandleader Jimmy Dorsey.

Miss Wellman said on cross-examination that her pay came in checks from Hollywood Research, Inc. The prosecution alleges that Hollywood Research and its operators, Fred and Marjorie Meade, all three being trial defendants, are the movieland material-gathering agency for Confidential and its sister publication Whisper.

New Snow Bars Way For Alpine Rescuers

GRINDELWALD, Switzerland—A thick layer of new snow covering the dreaded north wall of Mount Eiger is barring attempts to recover the bodies of three climbers who perished there less than two weeks ago, mountain guides said today.

The bodies of two Germans have not been spotted yet, despite a systematic search of the north wall by a powerful telescope. Snow is covering the dangling body of Italian climber Stefano Longhi so it is no longer visible. Only the rope which holds the body suspended can be seen.

Professes Ignorance Of Ricca

Hoffa Insists Man Who Sold Mansion, Hoodlum Not Same

WASHINGTON (AP)—James R. Hoffa swore today he did not know that racketeer Paul (The Walrus) Ricca owned a Chicago mansion the Teamsters Union bought recently for \$150,000.

"I don't believe it," Hoffa said. He had been asked whether he knew that Ricca owned the property, and that Ricca is "a notorious hoodlum . . . an old Capone mobster."

For the second day, the Midwest Teamsters Union boss was in the witness chair of the Senate Rackets Investigating Committee.

It is inquiring into his financial dealings and alleged associations with racketeers. Chairman McClellan (D-Ark.) contends that Hoffa brought New York racketeer Johnny Dio and other underworld figures into the Teamsters Union and used them in a scheme to enhance his own power.

Ricca's name did not come into the hearings until Hoffa was asked by committee counsel Robert F. Kennedy about the purchase of the Chicago mansion.

Hoffa said Teamster Locals No. 299, to which he belongs, and No. 337, both of Detroit, put up the \$150,000 to acquire the building in Chicago's outskirts. He said it is to be used as a training school for union officials who handle pension and welfare funds.

He said he knows the checks to buy the property were made out to a man named Paul DeLucia, and disputed a contention by Kennedy that DeLucia and Ricca are one and the same person.

Hoffa also told of a \$75,000 Teamster loan to the Abstract and Title Guarantee Co., whose home address was not mentioned, to finance building construction projects. He said his lawyer, George Fitzgerald, is one of the owners of this company. Fitzgerald said seated beside Hoffa at the time.

McClellan told Hoffa the committee is exploring his investments only to determine whether there may have been a conflict of interest between Hoffa's duties as a union official and his dealings with persons and firms with whom the Teamsters Union had labor contracts.

Hoffa, Midwest boss of the Teamsters, is expected to be elected next month as president of the giant union.

Postmaster Tells Rotary

Post Office Department Debt Rises At Rate of 2 Million Dollars a Day

The Post Office Department is going into the red at the approximate rate of two million dollars a day, Postmaster Maurice Hogan told members of Rotary Club at its meeting in Bothwell Hotel.

The postal service, said Hogan, is a vital part of our every day living, one of the basic means of communication binding our nation and linking it with other countries.

Unfortunately, he said, it has become increasingly costly to the government, with the gap widening year after year between the postal revenue and expenses. Postmaster General Arthur E. Summerfield, to help balance the books of the Post Office Department, has presented legislation to the Congress that will increase postal revenues some 530 million dollars yearly. The House recently approved the bill, but as yet the Senate has not acted upon it. That is a huge sum of money, said Hogan, but at the current rate the postal deficit is mounting at approximately two million dollars a day.

Operating in the red is nothing new to the Post Office Department, Hogan pointed out. During most of the 115 years of its existence it has operated at a loss, but in the past the annual deficit rarely exceeded 50 million dollars. The interest on the accumulated debt mounts to more than 125 million dollars a year.

The Post Office Department, Hogan told the group, is like other businesses, it has been caught in an inflationary squeeze. Since 1945 the cost of transportation, wages and supplies have added over a half billion dollars more a year to the expenses of the department.

In the last few weeks the western railroads were granted another 7 1/2 per cent increase in hauling mail.

to give them an estimated nine million dollars more revenue added to their 125 million dollar a year bill, and eastern railroads have a request in for a mail pay hike. In 1955 postal workers received a hard fought for pay increase which also added millions more to the

expense and other things that make up the balance of the expense are airline subsidies, capital equipment, new buildings, modern machines, maintenance and so forth. With the 1957 costs the Post

Senator Proposes Change To Allow Aid to Satellites

WASHINGTON (AP)—Sen. Kennedy (D-Mass.) today proposed legislation to wipe out current restrictions against United States aid to Poland and other Eastern European satellites where such aid may help promote U. S. interests.

Kennedy, a member of the Senate Foreign Relations Committee, offered his proposal in a speech prepared for Senate delivery.

He said the agreement last June for 95 million dollars in American aid to Communist Poland "can unfortunately be summed up in only five words—too little and too late."

Kennedy said he did not mean

the loan-gift agreement accomplished nothing, or that it was a mistake.

"But I do say that this inadequate agreement, coming at such a late date, after months of haggling, indecision, and delay, fell so short of our earlier boasts and our earlier promises that it failed to obtain for either our country or the people of Poland the full benefits for the cause of independence which such an agreement might have achieved," he said.

A Polish economic mission came here last February seeking 300 million dollars in aid. It came after President Eisenhower offered last October to help any nation, such as Poland, seeking greater independence from Moscow.

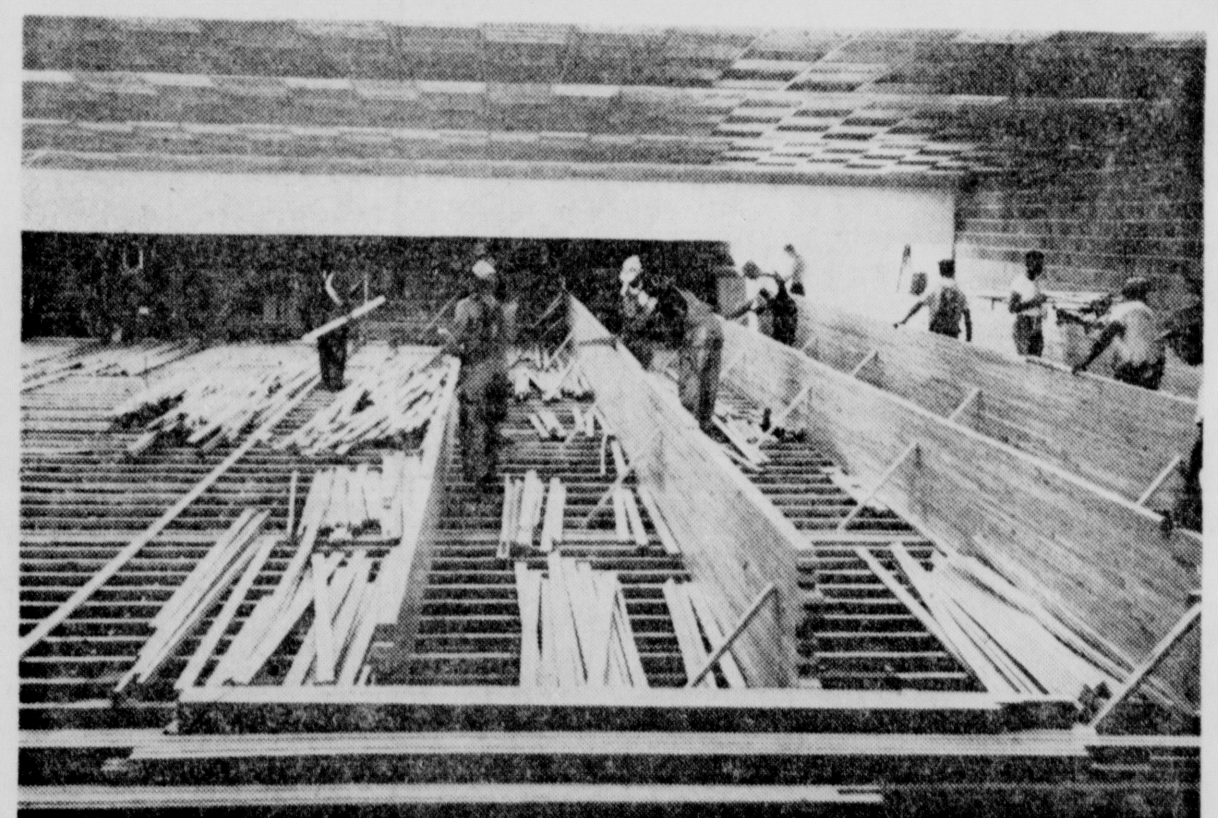

After more than three months of negotiations, there was agreement on a 95-million-dollar aid program. The Poles agreed to take half at that time and half when Congress passed a billion-dollar measure permitting surplus farm goods sales for local currencies abroad. Eisenhower signed that bill Aug. 13.

Pettis County Babies Take Most Honors

Trophies, Ribbons Presented by Acting Governor E. V. Long

The rains came, but it didn't dampen the desire of those who wanted to attend Governor's Day at the Missouri State Fair. The 1 1/2-inch rainfall drenched the mile race track, causing postponement of the Grand Circuit racing schedule for the afternoon, and moved inside some of the outdoor planned presentations.

Lt. Gov. Edward V. Long is doing the honors for Gov. James T. Blair, Jr., who is unable to attend the fair this year.

M. C. "Colie" Ervin, secretary of the fair, announced the Grand Circuit Wednesday race program was postponed and would be carried over to Thursday and combined with the regular Thursday schedule. This will give to the race fans 20 heats of racing and the program will start at 12:30 p.m. instead of the customary 1:30 p.m.

Wednesday afternoon the crowd was treated to a free show in the grandstand as a replacement for the races. Lou Breese and his famous recording dance band, with Brenda Lee, nine-year-old recording and television star, and other acts entertained for an hour and a half.

Among his daily chores besides visiting officially the exhibits in the various buildings, the stock barns and other points of interest on the grounds will be to make presentations. The grand champion babies will be congratulated and presented the Governor's trophies, presentations of trophies and ribbons to others who have grand champion stock, swine, and so on.

Lt. Gov. Long arrived Tuesday and stayed in the Governor's suite in the Administration Building on the grounds to prepare for early rising and visits to the exhibits. He will be an honor guest at a luncheon to be held in the dining room of the Administration Building today, and at dinner at the Sedalia Country Club this evening.

Tuesday, which was Legislators' and St. Louis Day, saw 63 of the Missouri lawmakers and their families participate in the activities. More than 300 St. Louisans were here, some driving their automobiles while 252 adults and ten children came on the 15-car special of the Missouri Pacific.

The attendance for Tuesday moved upward, but fell short 195 of equalling the comparative day a year ago. The total attendance was 61,451 compared with 61,646. The five-day total this year is still higher than the first five days of 1956, it being 236,084 as to 216,434. It still is short 73,387 of the record 1955 five-day total of 309,471.

3 Car Wreck Kills One; Eldon Man Hurt

BONNE TERRE, Mo. (AP)—A three-car accident killed one person and seriously injured six last night on U. S. 67 near here.

The Missouri Highway Patrol listed the victim as John McGuire, 41, of Potosi, Mo., and said a northbound car in which he was a passenger sideswiped one southbound auto and collided head-on with another southbound car.

Josephine Evelyn Yaeger, 26, of Farmington, Mo., the driver of the car in which McGuire was a passenger, and Naomi McGuire, 44, Potosi, another passenger in the car, were taken to Homer G. Phillips Hospital in St. Louis.

Taken to a Bonne Terre hospital in serious condition were Cletus Mahurin, 51, of Eldon, Mo., driver of another car, and three Mahurin children, Rayburn, 16, Dwight, 10, and Dwayne, 7.

Police Ban Gatherings Near Home

LEVITTOWN, Pa. — State police today banned gatherings of more than three persons in the neighborhood of Levittown's first Negro home owner after an officer was injured by a stone hurled from the midst of a crowd of demonstrators.

Some 400 persons congregated in the quiet suburban streets near the home of William Myers, 34, and his family last night for the second evening in a row. Jeers and cat-calls greeted officers who kept the crowds in check.

Suddenly, a stone hurled from the milling throng struck Sgt. Tom Stewart of the Bristol Township police. Stewart, bleeding from one ear, fell to the ground. Some 20 state and local police quickly broke up the crowd, taking three persons into custody.

Stewart was sent to Lower Bucks County Hospital, where doctors said he had a possible brain concussion. He was held at the hospital for observation.

Immediately after the stoning incident, Maj. William Ruch of the state police said he would permit no further gatherings of more than three persons in the neighborhood.

Crowds of varying size have been protesting the arrival of the Myers family ever since it became known they had bought the \$12,150 ranch-type home in this planned community of 60,000 in southeastern Pennsylvania. Some twelve persons have been arrested on minor charges.

Police last night arrested Clayton Gould, 37, Levittown, and William Duff, 18, of nearby Fairless Hills. Both were fined \$10 plus \$9 in costs on charges of disorderly conduct. Paul Sullivan, 15, Levittown, was arrested on an open charge and released in the custody of his parents.

Myers, a 34-year-old college-educated refrigeration technician, his wife Daisy and their youngest child, 2-year-old Linda, moved into their new home Monday. Their other two children, boys aged 4 and 3 are visiting relatives in York, Pa.

Birthplace of the CHILDREN'S POET, St. Louis

Eugene Field, born here Sept. 3, 1850, entered the newspaper business in Missouri in 1875. His fame as a journalist arose chiefly from his pace-setting column of satire, "Sharps and Flats," found in the old Chicago Morning News.

But his gentler wit brought him greater renown in his realm of delightful children's literature, including such well loved poems as "Little Boy Blue" and "Wynken, Blynken and Nod."

Today, through his furniture, manuscripts and personal curios, visitors to the old house gain a sharper understanding of the beloved Eugene Field.

Senator Wants Ban On Steel Animal Traps

WASHINGTON (AP)—Sen. Neuberger (D-Ore.) said today American women often wear their fur coats at the expense of extreme cruelty to the wild animals that provide them.

Neuberger said this is sounding a new call for support of his bill to prohibit the use of the toothed steel traps and other "instruments of medieval torture," as he called them, on federal lands.

The very thought of some of the tortures the animals undergo, he said in a speech prepared for the Senate, would be abhorrent to "the American female, a person of great gentleness and compassion."

Congress Okays Atomic Energy Construction

WASHINGTON (AP)—Congress has passed and sent to the White House a 352-million-dollar atomic energy construction bill. It includes authorization for a program of government-built atomic power reactors opposed by the administration.

Actual funds for projects authorized under the measure will be appropriated in a separate money bill which comes up for consideration today at a closed session of the House Appropriation Committee.

Both houses passed the compromise bill on voice votes yesterday. Most of the projects in the bill are noncontroversial, consisting of regular construction planned by the Atomic Energy Commission.

Senate Democrats sponsored the reactor program, which was reduced in scope in the compromise. As finally passed, the bill provides three million dollars each for planning two reactors—one at Hanford, Wash., and one in Idaho—and 15 millions for building an experimental plutonium recycle reactor at Hanford.

The measure also orders AEC to build small reactors for three rural power cooperatives and a municipal power group, and to make steam available to them at a price based on the cost in using conventional fuels.

BUBBLES: ROUND AND SQUARE—Round bubbles, left, are produced by small children with soap bubble pipes and most of the time by nature. Now, Peter Senio, a metallurgist at the Knolls Atomic Power Laboratory in Schenectady, N.Y., reports that he has discovered square bubbles in nature. The first such ever observed in nature, the square and rectangular bubbles, right, only three-one-hundred-thousandths of an inch thick, appear when lithium fluoride, irradiated with neutrons, is heated above 600 degrees centigrade (1,112 degrees Fahrenheit). Square bubbles shown were magnified more than 400 times, then enlarged in a photo-enlarger. The Knolls Laboratory is operated by General Electric for the Atomic Energy Commission.

Would Let Communist Refugees Into US

WASHINGTON (AP)—Thousands of refugees from communism could be admitted to the United States under provisions of an immigration bill approved by the Senate Judiciary Committee.

The measure would amend the McCarran - Walter Immigration Act, and would permit broader use of 18,365 visas left over from the 1953 Refugee Relief Act which expired last Dec. 31.

This would open the way for admission of persons fleeing communism, or persecution in the Middle East.

Except for that refugee provision, the Senate bill approved yesterday closely resembles a measure approved last week by the House Judiciary Committee.

Neither bill would grant permanent residence to Hungarian refugees admitted on an emergency basis last fall. By this, the committee ignored a major administration request, along with other key immigration recommendations made by President Eisenhower.

Liberian Tanker Sinks; All Saved

LONDON (AP)—The 25,000-ton Liberian tanker World Splendor was sinking in the Mediterranean today but all survivors had been picked up, the ship's agents in London reported.

The ship, owned by the Niarchos group, was crippled by two explosions 60 miles east of Gibraltar yesterday. She was on her way from Southampton, England, to the Persian Gulf.

The agents said a British admiralty tug had picked up the survivors, but they could not give any casualty figures. Reports from Gibraltar yesterday said 32 injured men had arrived there.

Pet Snake Runs Afoul of Law Twice in Week

SOUTH ORANGE, N.J. (AP)—The long arm of the law has finally curled around Jo-Jo, a six-foot boa constrictor who has been run out of two towns in less than a week.

The 6-year-old reptile was sentenced yesterday to a lifetime stretch at the nearby Watchung Nature Museum.

Jo-Jo first came to public notice last week, when the board of health in Clifton ordered his owner, Abraham Kievit, to remove the animal from his home and get it out of town.

Kievit, who had raised Jo-Jo from infancy, reluctantly turned him over to 17-year-old Ronald Piper of South Orange.

Piper, who hopes to make reptiles his life's work, enjoyed caring for his pet and feeding him live rats. He literally became attached to the animal, wrapping him around his neck at times to show his affection.

But the happy idyll ended when police told Piper that Jo-Jo had to go. The youth pleaded that it would be nine years before the snake would be strong enough to crush a man, but the law was adamant.

As he took Jo-Jo to the museum, Piper sadly remarked, "I'll go to see him every time I get a chance."

UN Council Rebukes Red Backed Charge

UNITED NATIONS, N.Y. (AP)—The U.N. Security Council has refused to consider Soviet-backed Arab charges that Britain menaced peace in the Middle East by sending troops to quell a rebellion in Oman.

Sponsors of the charge fell three short of the seven affirmative votes needed in the 11-nation council for an airing of the case.

Russia, Iraq, Sweden and the Philippines voted in favor. Britain, France, Australia, Cuba and Colombia opposed debate. The United States abstained and Nationalist China asked to be recorded as "not participating" in the vote.

Russia's Arkady A. Sobolev accused Britain of intervening in Oman to protect the interests of British and British-American oil companies in the sultanate.

U.S. Chief Delegate Henry Cabot Lodge said the United States had abstained because statements made in the debate and "other information available to us" were not sufficient to justify committing the United States as for or against taking up the issue at this time.

Britain's Sir Pierson Dixon labeled the Arab stand "inconsistent, incoherent and improper."

Communism May Force Church To Make Change

MINNEAPOLIS (AP)—Communism oppression may force the Lutheran Church to change its structures to survive in countries behind the Iron Curtain, an East German bishop said today.

This change, he said, could be from the semi-state-church form common in Germany to "new forms of free and active congregation's third assembly, Bishop Friedrich Wilhelm Krummacker of Pomerania insisted. "We are never fighting for a lost cause even if our present church forms should have to be discontinued."

"We who live in countries ruled by communism and are aware of the radical changes in our social conditions, have the duty as well as the freedom soberly to examine the question whether or not the traditional parochial system of the folk-church should be superseded by new forms," he said.

His talk was one of the frankest outlines of Christianity's role behind the Iron Curtain yet presented at the assembly.

"Pain, suffering and persecution are some of the means by which the Lord unites His church," the bishop said. "The church will experience anew that seasons of tribulation, oppression and even bloody persecution may be essential to its growth."

German Airliner In Emergency Landing

SHANNON AIRPORT, Ireland (AP)—A German airliner with 30 Americans aboard ran into engine trouble over the Atlantic today and turned back to make a safe emergency landing here.

The Lufthansa Super G Constellation was 700 miles off the Irish coast—almost halfway across the Atlantic—in a flight from Hamburg to New York when an engine failed. Airline spokesmen said the big airliner was in no serious danger but took no chances and flew back to Shannon on three engines.

Accused Russian Will Confer With His Lawyer

NEW YORK (AP)—Accused Russian master spy Rudolf Ivanovich Abel is due to confer for the first time today with his court-appointed lawyer at the federal house of detention.

The lawyer, James B. Donovan, was appointed yesterday.

Donovan, 41-year-old former chief counsel for the World War II Office of Strategic Services, accepted the case "as a public service." He never has practiced criminal law.

At a news conference after his appointment, Donovan said he would demand FBI files if he thinks they will help his client. "If it is in his interests, I am obligated to ask for them and use them," he said.

Abel, 55, has been accused of stealing U.S. atomic and military secrets for the Soviet Union during nine years in which he posed as a Brooklyn artist. Conviction could bring a death penalty.

Donovan told reporters there is "a clear distinction" between Abel's case and Americans who betray their country for a foreign power.

"If the allegations are true, it means that instead of dealing with Americans who have betrayed their country, we are dealing with a Russian citizen, in a quasi-military capacity, who has served his country on an extraordinarily dangerous mission," he said.

Abel is accused of being a colonel in the Soviet secret police.

Foreign Aid Backers Will Try to Win \$3 Million in Funds

WASHINGTON (AP)—Sen. Thye (R-Minn.) said today foreign aid supporters will try to win approval of a minimum of three billion dollars in new funds from a bitterly divided Senate Appropriations Committee.

The committee is embroiled in a hot dispute over just how much money is available for military and economic assistance abroad from appropriations in previous years.

Officials of the International Cooperation Administration were called into a new closed hearing to give the committee details on how much uncommitted foreign aid money actually is available.

Sen. Lyndon B. Johnson of Texas, Senate majority leader, said the committee had been informed the total available for the aid program would come to 12 billion dollars, counting in fresh appropriations voted by the House—\$2,524,760,000 in new funds and \$667,050,000 in reappropriations.

Teamsters Settle Milk Drivers' Strike

NEW YORK (AP)—A Teamsters strike that threatened to cut off milk supplies for 12 million consumers in the metropolitan area was settled today.

Representatives of Local 770 of the International Brotherhood of Teamsters and the Dairy Transport Assn. reached agreement after a five-hour conference.

Monday night 950 drivers who transport raw milk from upstate dairy farms to the metropolitan

area walked out in a contract dispute with the association. The association represents 25 milk-hauling concerns.

No general shortage of milk developed before the strike ended.

YOUR CHILD MAY HAVE PIN-WORMS 1 OUT OF 3 DOES!

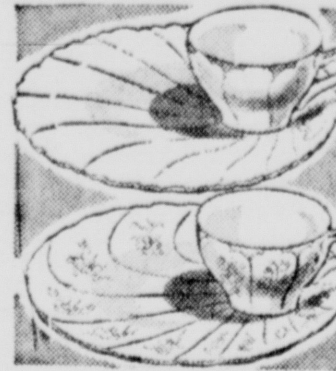

Fidgeting, nose-picking and a tormenting rectal itch are often tell-tale signs of Pin-Worms. . . ugly parasites that medical experts say infect one out of every three persons examined. Entire families may be victims and not know it.

To get rid of Pin-Worms, these pests must not only be killed, but killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W Tablets do . . . and here's how they do it:

First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredient goes right to work—killing Pin-Worms quickly and easily.

Don't take chances with this dangerous, highly contagious condition. Get genuine Jayne's P-W Vermifuge. . . small, easy-to-take tablets. . . special extra for children and adults. Perfected by Dr. D. Jayne & Son, specialists in worm remedies for 100 years.

Champ Ham Has Been Sent To Boys Town

The Missouri ham which brought a world's record price at the annual Missouri State Fair ham breakfast Monday morning has been sent to Boys Town, just west of Omaha, Neb. Al Sweeney of National Speedways, who paid \$40 a pound for the ham told members of the Optimist Club at the noon meeting Tuesday at Bothwell Hotel.

Sweeney, who was the speaker at the meeting, stated he had been a close friend of Father Flanagan, who started Boys Town, and watched the town grow from almost a hut to the great institution it is today, as he went back and forth to the Nebraska Fair at Omaha. The money with which Father Flanagan founded Boys Town was provided by a Jewish banker, Sweeney said. Today it is one of the finest places in the world, the speaker said, spreading over 1,000 acres and with every type of cattle known.

"Boys Town has entered the competition in first the Nebraska State Fair, then the Iowa State Fair, and next year," said Sweeney, "I have asked them to bring their herds to the Missouri State Fair."

The Optimist members were particularly interested in Sweeney's talk about Boys Town because they are sponsoring a concert in October by the Boys Town Choir at the Coliseum at the Fair grounds.

Sweeney's main topic, however, was on the Missouri State Fair, which he said is the only major State Fair this year showing an increase in attendance. The others are showing a decrease.

The work of the secretary, Colie Ervin, in getting attractions and the many improvements has done a great deal to make this one of the finest fairs in America and if the attendance continues it will be among the top ten in attendance in America.

Sweeney told of the 100-mile Missouri Futurity Big Car Auto Races to be held Saturday afternoon on the mile track for which entry must be made a year in advance and the 100-mile Stock Car Auto Races on Sunday afternoon when American stock cars compete with American and foreign sport cars.

The show, "Holiday On Ice," in front of the grandstand, he said, is the finest in America and is at real bargain prices ranging from \$2 to \$6 in most places for the same show.

The events for the Missouri State Fair are selected by the secretary at the Amusement Convention held at the Sherman Hotel in Chicago the first week in December, when all those looking for the top in entertainment choose from the great field offered, including shows, racing, and livestock, and dates are set.

This is where the National Speedways fit into the picture, picking drivers, publicity and dates. The National Speedways take a percentage of the gate, paying expenses and also taking the loss if the race is rained out. "Holiday On Ice" does the same thing, Sweeney said.

Sweeney knows about fairs and entertainment. He has been in show business one way or another for years and is now president of the National Showman's League.

The speaker, who is always a favorite with the club, was asked many questions regarding racing. He was introduced by Ed Kuhr, program chairman.

Gerald Cecil, first vice-president, presided over the meeting in the absence of Claude L. Boul, president.

Invocation was given by Dr. H. O. Wilbur and singing was led by Charles Hanna with Miss Lillian Fox at the piano.

Lions Club Summons Its Full Membership For Ice Cream Social

Manpower of the Sedalia Lions Club is being assembled for their annual ice cream social Friday night, Aug. 23, at the Mike O'Connor lot on West Fourth Street. To supply speedy service for many supporters of this project, an ample crew of waiters, clean-up men, and many others are needed.

Proceeds of the Lions social are earmarked for their children's work program, and the entire membership of the Lions Club is assigned to some of the many tasks that go to make the social a success. It takes strong arms and backs to dip the estimated 100 gallons of ice cream that will be served during the evening and that task will be handled by a committee headed by Wayne Miller, with Ad Taylor, Roy Cline, John Thomas, George Curmutt, Virgil Ragar, Paul Hausam, Milt Skinner, Don King, Jim Atkinson and Orson Potter as his assistants.

In addition to ice cream and cake, soda pop will be available for the thirsty, and for the small fry many of whom prefer pop to cream, and a committee of Jack Pasley, Dr. Dave Robinson, E. B. Smith, Lee Johnson, Charles Huntington and William F. Brown will be on hand to ice and serve drinks during the evening.

Jeff City, Hannibal To Open Ban Johnson Playoff on Saturday

MOBERLY, Mo. (AP)—Jefferson City and Hannibal will open a best-of-five playoff at Hannibal Saturday night for the Central Missouri Ban Johnson baseball championship.

Jefferson City defeated Boonville 2-0 last night to win a playoff for the second half pennant in the western division.

The western division playoff was made necessary when Jefferson City, which won the first half flag, Boonville and Sedalia finished in a three way tie with 3-4 records. Boonville defeated Sedalia 4-3 Sunday night.

Hannibal won both the first and second half titles in the eastern division.

The Jefferson City-Hannibal series will be played on consecutive nights with the teams alternating home fields.

Will Get Court Test

KANSAS CITY (AP)—Missouri's King-Thompson public utility anti-strike law will be tested in the U. S. Supreme Court, the International Brotherhood of Electrical Workers has announced.

The law provides that the state may seize a utility to insure continued service in event of a strike. Three Kansas City IBEW locals attacked the law several months ago on grounds of constitutionality. They said the federal government pre-empted labor relations in interstate commerce by setting up the National Labor Relations Board.

Post Office

(Continued from Page One)
Office Department is still charging 1932 prices for most of its services. The basic dilemma is whether the postal system shall be regarded as a public service supported by the taxpayers, a business enterprise that would strive to make a profit or a combination of the two.

Summerfield feels, Hogan said, that since postal establishment is a public monopoly it should not be turned into a profit making organization, Hogan stated, but he believes it should not lose the taxpayers' money at the rate of two million dollars a day. He has announced two immediate objectives, the first to increase the postage rates on first, second and third class mail that the department can operate more on a break even basis and the actual users of the mail would pay more of the cost which is now paid by the taxpayers. His second objective is to accelerate a long-range program to build and modernize post office facilities and to develop modern mechanical and electronic equipment to speed mail through post offices 40 to 50 per cent faster than is now possible.

Besides the request for postage rate increases, the Postmaster General has taken certain steps allowed him by law to gain more operating money for the department. Last July fees went up for many services such as money orders, registered mail and special delivery. Many publishers claim that the educational value of newspapers and magazines justify the traditionally low rates given second class mail, said Hogan, and users of third class mail, sometimes referred to as "junk-mail" sent by soap manufacturers, insurance companies, and such types plus those businesses principally in direct selling, contend that postage is unusually important and a substantial part of their cost of selling, but under the Post Office department's system of accounting for estimated revenue and cost of handling mail by the four classes, first class mail is the only one that pays its way.

When Summerfield took office, he promised a business like administration and a speedier mail service and he has worked hard to accomplish his aim, Hogan said. Emphasis has been placed on research and development for better and faster service. There are now scattered throughout the United States 15 regional offices with jurisdiction over some 90 districts which speeds up the answers to postmasters' local problems all over the nation. The Sedalia post office, he said, is located in the St. Louis region headed by Jim Tunny, director, who was postal inspector here several years ago.

Hogan stated that five years ago when he took office the annual revenue in the Sedalia post office was about \$190,000. Last year it was \$296,000, which he pointed out, is a good indication of the industrial and business growth of the city. We have gained a little over 1,000 possible delivery stops in this period and applying a percentage of 3.5 people for each stop, the population of Sedalia is now about 23,000.

There are 18 city carrier routes, he said, 16 of them foot routes, two mounted routes. There are five government vehicles for which all oil, gas, tires and maintenance is locally purchased. The personnel numbers 63 people, with an annual payroll just under \$300,000. Besides the three postal stations located in the city, here is also a branch at Whiteman Air Force Base and besides the payroll for postal personnel Sedalia benefits from several contract services re-

quired by the postal service. Besides the services rendered to its patrons, its expenditures for those services make a sizable payroll.

Two More Cases Of Food Poison Reported at Fair

Two cases of food poisoning were again reported Tuesday. They were Mr. and Mrs. Albert Fessler of Salisbury, Mo. Health authorities are making a very detailed survey of the situation. The two are reported in good condition now.

Tuesday morning Bobby Nieman of Bowling Green was bitten on the hand by a hog. Several stitches were taken, tetanus toxin was administered, and he is all right now. Dr. Lemire gave the treatment.

Earl Wood of Smithton was horned by a cow on the hand. He was treated and is all right.

The usual run of blistered feet, headaches, digestive upsets, colds, allergies, sore throats, minor burns, cuts and scrapes, splinters and insect bites were reported.

Forty-six patients were treated Tuesday and 21 had reported until 1 p.m. Wednesday.

Special recognition is in line to the Pettis County Medical Society in its provision of medical doctors. At present 20 doctors are offering free services throughout fair week. One is always on duty during the day and on call at night.

Red Spider Mites Seen In Gardens

By Arthur E. Gauss
Extension Horticulturist
University of Missouri

Watch out for insects in your gardens this week. Red spider mites are now being reported in gardens in several sections of the state. These are very tiny insects and usually go unnoticed until they have done considerable damage.

Such damage is characterized by a grayish-yellow, stippled-like appearance of the foliage. Close examination of the underside of the leaves reveals tiny, tan mites which crawl around on very fine webs.

Control of red spider mites is rather difficult. Best material for home garden use is malathion. Use two tablespoons of the 25 per cent wettable powder per gallon of water and spray the whole plant. Use particular care in getting the undersides of the leaves wet as this is where most of the mites feed. Since eggs hatch out every day and the malathion is effective for only three days, apply a second spray three days after the first. If you have done a good job of coverage these two sprays should clean up most infestations.

Eggplant, tomato, pepper, and melons are most susceptible to red spider mite injury but look for injury on most all vegetables. To avoid possible toxic residues on these vegetables, wait three days from the time you spray until you harvest. Always wash vegetables thoroughly before eating or processing.

Watch out for insects on your newly-germinated fall vegetables. Flea beetles, leaf hoppers, and a host of worms relish the tender young seedlings and can destroy a planting almost overnight. Spray twice a week with methoxychlor and malathion to control these insects. Start spraying just as soon as the vegetables show above the ground.

Don't let your garden become a weed patch during August and September. Too often our gardening interest wanes about this time of the year and we allow the weeds to take over. Even if we aren't much interested in what might be left in the garden at this time of the year we shouldn't allow the weeds to grow. There are several secondary reasons — one is that the weeds pull moisture out of the soil — but the most important reason why we should control weeds is to prevent their maturing seeds.

Weeds are no doubt the number one problem in most gardens. If it weren't for weeds most of us would do more gardening and enjoy gardening much more. One way to ease the weed problem in your garden is simply not allow weeds to mature seeds in your garden. If you follow the practice of keeping your garden weed free, you'll find you have a smaller and smaller weed problem each succeeding year.

Hollywood Man Takes Sleeping Pills

HOLLYWOOD — Police said that Percival H. (Perc) Westmore 52, veteran Hollywood makeup man, gulped a handful of sleeping pills last night in his home as his wife watched.

Officers termed it an attempted suicide.

Westmore was hospitalized in critical condition.

Officers E. L. Allen and C. A. Jones said Westmore's wife told them her husband called her into the living room of their home high in the Hollywood Hills and then swallowed what she estimated as 17 pills.

She told the officers that her husband had been despondent for several days, but she said she didn't know why.

Westmore was treated at Hollywood Receiving Hospital and transferred to a private sanitarium under the care of his personal physician.

Arresting Officers Find Movie Actress Unconscious on Floor

LOS ANGELES — Actress Gail Russell was found unconscious on her bathroom floor last night by sheriff's deputies who came to arrest her for failing to appear in court on a felony drunk driving charge.

Sergeants H. W. Trail and G. A. Corbett said Miss Russell's mother met them at the front door and said: "Gail's on the bathroom floor. Will you help me get her up?"

The deputies said the actress, barefooted and clad in pajamas, was unconscious.

They took her to the prison ward of Los Angeles General Hospital, where she was booked on charge of failure to appear for arraignment in Superior Court on the drunk driving accusation. She is under observation in the hospital ward.

Miss Russell is charged with driving her white convertible into a closed coffee shop last July 4 and injuring a janitor.

Skies Clear Over Most of US Today

By THE ASSOCIATED PRESS

Fairly pleasant summer weather prevailed in most of the country today although showers were in prospect for some western and mid-continent areas.

Skies were clear in most of the nation from the Plains to the Atlantic Coast as a high pressure area extended from the Gulf of Mexico into Hudson Bay. Cooler air moved through Florida and brought scattered light showers during the night.

Another batch of cool air moved southward through the Great Lakes region and New England and triggered scattered thunder-showers along the southern shore of Lake Ontario.

Green Named To County FHA Group

E. M. Green of Hughesville is the new Farm Home Administration committeeman for Pettis County. He succeeds Thomas U. Harvey who has served his full three-year term, Kenneth F. Fine, the agency's county supervisor announced today.

Green operates a general crop and livestock farm four miles north of Dresden. The other two committeemen with unexpired terms are William C. Corlew, Smithton, and Raymond D. Neitzert, Route 4, Sedalia. Committee members serve three-year terms arranged so that one member is appointed each year. The term of office begins July 1. A member completing his term cannot succeed himself and at least two of the members must be farmers.

The county committee determines the eligibility of local farmers who apply for Farmers Home Administration loans. The committee also certifies the value of farms being purchased or improved with Farmers Home Administration loans and assists in adapting the loan program to local conditions. There are approximately 3,000 county committees in the United States, Alaska, Hawaii, Puerto Rico and the Virgin Islands.

Approximately 64 per cent of the applications reviewed by the Pettis County committee during the past year were for operating loans while 36 per cent were for real estate loans. Operating loans are used by farmers to buy quality livestock and machinery and to meet operating expenses incurred in adjusting and improving their farming methods. Real estate loans are used to buy, improve or enlarge family-type farms and to refinance certain debts. Loans are also available to farmers to establish and carry on approved soil and water conservation practices including the construction of farmstead water systems, terraces, irrigation and drainage systems. Farm Housing loans for building or remodeling farm homes and other necessary farm buildings are also provided.

Champ Ham Has Been Sent To Boys Town

The Missouri ham which brought a world's record price at the annual Missouri State Fair ham breakfast Monday morning has been sent to Boys Town, just west of Omaha, Neb. Al Sweeney of National Speedways, who paid \$40 a pound for the ham told members of the Optimist Club at the noon meeting Tuesday at Bothwell Hotel.

Sweeney, who was the speaker at the meeting, stated he had been a close friend of Father Flanagan, who started Boys Town, and watched the town grow from almost a hut to the great institution it is today, as he went back and forth to the Nebraska Fair at Omaha. The money with which Father Flanagan founded Boys Town was provided by a Jewish banker, Sweeney said. Today it is one of the finest places in the world, the speaker said, spreading over 1,000 acres and with every type of cattle known.

"Boys Town has entered the competition in first the Nebraska State Fair, then the Iowa State Fair, and next year," said Sweeney, "I have asked them to bring their herds to the Missouri State Fair."

The Optimist members were particularly interested in Sweeney's talk about Boys Town because they are sponsoring a concert in October by the Boys Town Choir at the Coliseum at the Fair grounds.

Sweeney's main topic, however, was on the Missouri State Fair, which he said is the only major State Fair this year showing an increase in attendance. The others are showing a decrease.

The work of the secretary, Colie Ervin, in getting attractions and the many improvements has done a great deal to make this one of the finest fairs in America and if the attendance continues it will be among the top ten in attendance in America.

Sweeney told of the 100-mile Missouri Futurity Big Car Auto Races to be held Saturday afternoon on the mile track for which entry must be made a year in advance and the 100-mile Stock Car Auto Races on Sunday afternoon when American stock cars compete with American and foreign sport cars.

The show, "Holiday On Ice," in front of the grandstand, he said, is the finest in America and is at real bargain prices ranging from \$2 to \$6 in most places for the same show.

The events for the Missouri State Fair are selected by the secretary at the Amusement Convention held at the Sherman Hotel in Chicago the first week in December, when all those looking for the top in entertainment choose from the great field offered, including shows, racing, and livestock, and dates are set.

This is where the National Speedways fit into the picture, picking drivers, publicity and dates. The National Speedways take a percentage of the gate, paying expenses and also taking the loss if the race is rained out. "Holiday On Ice" does the same thing, Sweeney said.

Sweeney knows about fairs and entertainment. He has been in show business one way or another for years and is now president of the National Showman's League.

The speaker, who is always a favorite with the club, was asked many questions regarding racing. He was introduced by Ed Kuhr, program chairman.

Gerald Cecil, first vice-president, presided over the meeting in the absence of Claude L. Boul, president.

Invocation was given by Dr. H. O. Wilbur and singing was led by Charles Hanna with Miss Lillian Fox at the piano.

Lions Club Summons Its Full Membership For Ice Cream Social

Manpower of the Sedalia Lions Club is being assembled for their annual ice cream social Friday night, Aug. 23, at the Mike O'Connor lot on West Fourth Street. To supply speedy service for many supporters of this project, an ample crew of waiters, clean-up men, and many others are needed.

Proceeds of the Lions social are earmarked for their children's work program, and the entire membership of the Lions Club is assigned to some of the many tasks that go to make the social a success. It takes strong arms and backs to dip the estimated 100 gallons of ice cream that will be served during the evening and that task will be handled by a committee headed by Wayne Miller, with Ad Taylor, Roy Cline, John Thomas, George Curmutt, Virgil Ragar, Paul Hausman, Milt Skinner, Don King, Jim Atkinson and Orson Potter as his assistants.

In addition to ice cream and cake, soda pop will be available for the thirsty, and for the small fry many of whom prefer pop to cream, and a committee of Jack Pasley, Dr. Dave Robinson, E. B. Smith, Lee Johnson, Charles Huntington and William F. Brown will be on hand to ice and serve drinks during the evening.

Jeff City, Hannibal To Open Ban Johnson Playoff on Saturday

MOBERLY, Mo. (AP)—Jefferson City and Hannibal will open a best-of-five playoff at Hannibal Saturday night for the Central Missouri Ban Johnson baseball championship.

Jefferson City defeated Boonville 2-0 last night to win a playoff for the second half pennant in the western division.

The western division playoff was made necessary when Jefferson City, which also won the first half flag, Boonville and Sedalia finished in a three way tie with 8-4 records. Boonville defeated Sedalia 4-3 Sunday night.

Hannibal won both the first and second half titles in the eastern division.

The Jefferson City-Hannibal series will be played on consecutive nights with the teams alternating home fields.

Will Get Court Test

KANSAS CITY (AP)—Missouri's King-Thompson public utility anti-strike law will be tested in the U. S. Supreme Court, the International Brotherhood of Electrical Workers has announced.

The law provides that the state may seize a utility to insure continued service in event of a strike. Three Kansas City IBEW locals attacked the law several months ago on grounds of constitutionality. They said the federal government pre-empted labor relations in interstate commerce by setting up the National Labor Relations Board.

Post Office

(Continued from Page One)
Office Department is still charging 1932 prices for most of its services. The basic dilemma is whether the postal system shall be regarded as a public service supported by the taxpayers, a business enterprise that would strive to make a profit or a combination of the two.

Summerfield feels, Hogan said, that since postal establishment is a public monopoly it should not be turned into a profit making organization, Hogan stated, but he believes it should not lose the taxpayers' money at the rate of two million dollars a day. He has announced two immediate objectives, the first to increase the postage rates on first, second and third class mail that the department can operate more on a break even basis and the actual users of the mail would pay more of the cost which is now paid by the taxpayers. His second objective is to accelerate a long-range program to build and modernize post office facilities and to develop modern mechanical and electronic equipment to speed mail through post offices 40 to 50 per cent faster than is now possible.

Besides the request for postage rate increases, the Postmaster General has taken certain steps allowed him by law to gain more operating money for the department. Last July fees went up for many services such as money orders, registered mail and special delivery. Many publishers claim that the educational value of newspapers and magazines justify the traditionally low rates given second class mail, said Hogan, and users of third class mail, sometimes referred to as "junk-mail" sent by soap manufacturers, insurance companies, and such types plus those businesses principally in direct selling, contend that postage is unusually important and substantial part of their cost of selling, but under the Post Office department's system of accounting for estimated revenue and cost of handling mail by the four classes, first class mail is the only one that pays its way.

When Summerfield took office, he promised a business like administration and a speedier mail service and he has worked hard to accomplish his aim, Hogan said. Emphasis has been placed on research and development for better and faster service. There are now scattered throughout the United States 15 regional offices with jurisdiction over some 90 districts which speeds up the answers to postmasters' local problems all over the nation. The Sedalia post office, he said, is located in the St. Louis region headed by Jim Tunny, director, who was postal inspector here several years ago.

Hogan stated that five years ago when he took office the annual revenue in the Sedalia post office was about \$190,000. Last year it was \$296,000, which he pointed out, is a good indication of the industrial and business growth of the city. We have gained a little over 1,000 possible delivery stops in this period and applying a percentage of 3.5 people for each stop, the population of Sedalia is now about 23,000.

There are 18 city carrier routes, he said, 16 of them foot routes, two mounted routes. There are five government vehicles for which all oil, gas, tires and maintenance is locally purchased. The personnel numbers 63 people, with an annual payroll just under \$300,000. Besides the three postal stations located in the city, here is also a branch at Whiteman Air Force Base and besides the payroll for postal personnel Sedalia benefits from several contract services re-

quired by the postal service. Besides the services rendered to its patrons, its expenditures for those services make a sizable payroll.

Postmaster Hogan was introduced by Jesse Summers, program chairman.

Dr. Gordon Stauffacher, president, conducted the meeting and invocation was by the Rev. M. Edward Bereade, Jerseyville, Ill. Singing was led by James T. Denny with Miss Lillian Fox at the piano.

Visitors were introduced by James O. Miller as follows: L. O. Phelan, Aberdeen, S.D., past governor, guest of J. O. Miller; Don Raymond, Slater; J. C. Franks, guest of his father, James Franks; B. Ban and Bill Culley, both of Kansas City, guests of Ralph Carrel; Jack Curtis, Guatemala City, Guatemala, guest of Keith Yount; Dr. C. K. Almquist, guest of Dr. L. S. Geiger; Jane Brougher, guest of Harry Brougher; Warren Fuqua and Emmett Slusher, Jefferson City; Walt Pursey and W. W. Pursey, Bonne Terre, guest of Bill Hopkins; and Eugene L. Preston, publisher of the Liberty Tribune, Liberty, Mo.

Roving Rotarians were Jim Buchanan, Grover, Okla.; J. D. Burk, Nevada; the Rev. Robert Leheh, Clinton; the Rev. D. Warren Neal, Brookfield; O. W. Wiley, Clinton; and Wally Wise, Warrensburg.

The District Governor will make his official visit to the club on Sept. 16.

Two More Cases Of Food Poison Reported at Fair

Two cases of food poisoning were again reported Tuesday. They were Mr. and Mrs. Albert Fessler of Salisbury, Mo. Health authorities are making a very detailed survey of the situation. The two are reported in good condition now.

Tuesday morning Bobby Nieman of Bowling Green was bitten on the hand by a hog. Several stitches were taken, tetanus toxin was administered, and he is all right now. Dr. Lemire gave the treatment.

Earl Wood of Smithton was horned by a cow on the hand. He was treated and is all right.

Red Spider Mites Seen In Gardens

By Arthur E. Gaus
Extension Horticulturist
University of Missouri

Watch out for insects in your gardens this week. Red spider mites are now being reported in gardens in several sections of the state. These are very tiny insects and usually go unnoticed until they have done considerable damage.

Such damage is characterized by a grayish-yellow, stippled-like appearance of the foliage. Close examination of the underside of the leaves reveals tiny, tan mites which crawl around on very fine webs.

Control of red spider mites is rather difficult. Best material for home garden use is malathion. Use two tablespoons of the 25 per cent wettable powder per gallon of water and spray the whole plant. Use particular care in getting the undersides of the leaves wet as this is where most of the mites feed. Since eggs hatch out every day and the malathion is effective for only three days, apply a second spray three days after the first. If you have done a good job of coverage these two sprays should clean up most infestations.

Eggplant, tomato, pepper, and melons are most susceptible to red spider mite injury but look for injury on most all vegetables. To avoid possible toxic residues on these vegetables, wait three days from the time you spray until you harvest. Always wash vegetables thoroughly before eating or processing.

Watch out for insects on your newly-germinated fall vegetables. Flea beetles, leaf hoppers, and a host of worms relish the tender young seedlings and can destroy a planting almost overnight. Spray twice a week with methoxychlor and malathion to control these insects. Start spraying just as soon as the vegetables show above the ground.

Don't let your garden become a weed patch during August and September. Too often our gardening interest wanes about this time of the year and we allow the weeds to take over. Even if we aren't much interested in what might be left in the garden at this time of the year we shouldn't allow the weeds to grow. There are several secondary reasons — one is that the weeds pull moisture out of the soil — but the most important reason why we should control weeds is to prevent their maturing seeds.

Weeds are no doubt the number one problem in most gardens. If it weren't for weeds most of us would do more gardening and enjoy gardening much more. One way to ease the weed problem in your garden is simply not allow weeds to mature seeds in your garden. If you follow the practice of keeping your garden weed free, you'll find you have a smaller and smaller weed problem each succeeding year.

Hollywood Man Takes Sleeping Pills

HOLLYWOOD — Police said that Percival H. (Perc) Westmore 52, veteran Hollywood makeup man, gulped a handful of sleeping pills last night in his home as his wife watched.

Officers termed it an attempted suicide.

Westmore was hospitalized in critical condition.

Officers E. L. Allen and C. A. Jones said Westmore's wife told them her husband called her into the living room of their home high in the Hollywood Hills and then swallowed what she estimated as 17 pills.

She told the officers that her husband had been despondent for several days, but she said she didn't know why.

Westmore was treated at Hollywood Receiving Hospital and transferred to a private sanitarium under the care of his personal physician.

Arresting Officers Find Movie Actress Unconscious on Floor

LOS ANGELES — Actress Gail Russell was found unconscious on her bathroom floor last night by sheriff's deputies who came to arrest her for failing to appear in court on a felony drunk driving charge.

Sergeants H. W. Trail and G. A. Corbett said Miss Russell's mother met them at the front door and said: "Gail's on the bathroom floor. Will you help me get her up?"

The deputies said the actress, barefooted and clad in pajamas, was unconscious.

They took her to the prison ward of Los Angeles General Hospital, where she was booked on charge of failure to appear for arraignment in Superior Court on the drunk driving accusation. She is under observation in the hospital ward.

Miss Russell is charged with driving her white convertible into a closed coffee shop last July 4 and injuring a janitor.

Skies Clear Over Most of US Today

By THE ASSOCIATED PRESS

Fairly pleasant summer weather prevailed in most of the country today although showers were in prospect for some western and mid-continent areas.

Skies were clear in most of the nation from the Plains to the Atlantic Coast as a high pressure area extended from the Gulf of Mexico into Hudson Bay. Cooler air moved through Florida and brought scattered light showers during the night.

Another batch of cool air moved southward through the Great Lakes region and New England and triggered scattered thunder showers along the southern shore of Lake Ontario.

Green Named To County FHA Group

E. M. Green of Hughesville is the new Farap Home Administration committee member for Pettis County. He succeeds Thomas U. Harvey who has served his full three-year term. Kenneth F. Fine, the agency's county supervisor announced today.

Green operates a general crop and livestock farm four miles north of Dresden. The other two committee members with unexpired terms are William C. Corlew, Smithton, and Raymond D. Neitzert, Route 4, Sedalia. Committee members serve three-year terms arranged so that one member is appointed each year. The term of office begins July 1. A member completing his term cannot succeed himself and at least two of the members must be farmers.

The county committee determines the eligibility of local farmers who apply for Farmers Home Administration loans. The committee also certifies the value of farms being purchased or improved with Farmers Home Administration loans and assists in adapting the loan program to local conditions. There are approximately 3,000 county committees in the United States, Alaska, Hawaii, Puerto Rico and the Virgin Islands.

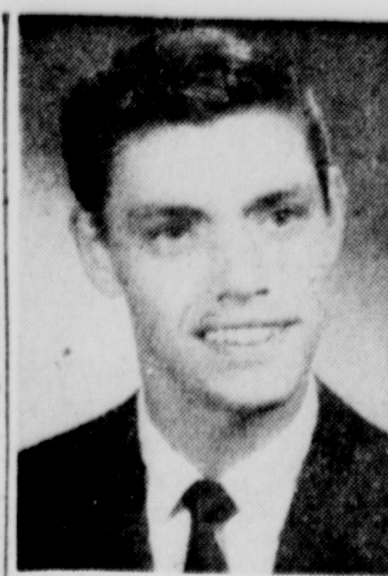

Approximately 64 per cent of the applications reviewed by the Pettis County committee during the past year were for operating loans while 36 per cent were for real estate loans. Operating loans are used by farmers to buy quality livestock and machinery and to meet operating expenses incurred in adjusting and improving their farming methods. Real estate loans are used to buy, improve or enlarge family-type farms and to refinance certain debts. Loans are also available to farmers to establish and carry on approved soil and water conservation practices including the construction of farmstead water systems, terraces, irrigation and drainage systems. Farm housing loans for building or remodeling farm homes and other necessary farm buildings are also provided.

Many of the real estate loans are

made from funds advanced by private lenders and insured by the agency. Some of the real estate loans and all of the loans for operating farms are from annually appropriated funds.

The agency also makes emergency loans in areas where severe storms or other disasters have caused severe crop damage and increased the need for agricultural credit.

The agency does not make a loan of any type to an applicant whose credit needs can be handled by other credit sources.

Jerry Turner, son of Mr. and Mrs. Kelly E. Turner, 815 East Sixth, received his bachelors degree in merchandising and retailing at Central Missouri State at Warrensburg on July 26 and has accepted a position with Marshall Field Co. in Chicago, Ill. No Nagging Backache Means a Good Night's Sleep

Nagging backache, headache, or muscular aches and pains may come on with over-exercising, emotional upsets or day-to-day stress and strain. And folks who eat and drink unwisely sometimes suffer mild bladder irritation... with that restless, uncomfortable feeling.

If you are miserable and worn out because of these discomforts, Doan's Pills often help by their pain relieving action, by their soothing effect to ease bladder irritation, and by their mild diuretic action through the kidneys — tending to increase the output of the 15 miles of kidney tubes.

So if nagging backache makes you feel dragged-out, miserable, with restless, sleepless nights, don't wait, try Doan's Pills, get the same happy relief millions have enjoyed for over 60 years. Ask for new, large, economy size and save money. Get Doan's Pills today!

Sacred Services At The Fair

A French preacher once opined: "It is the true cry of nature; wherever we are we wish to be first."

And so there may have been a tinge of over-zealousness in references to religious services being conducted for the first time at the Missouri State Fair grounds Sunday morning.

Religious services have been held at the Fair before—as far back as 40 or more years ago. They differed only in the manner in which they were conducted.

Insofar as anyone knows however, this year on two Sundays the Missouri State Fair will have been the locale for first religious services simultaneously by three faiths: Catholic, Protestant and Jewish. Showmen and personnel on the grounds have expressed appreciation for this observance.

There is not a fair, county, state or national which will suffer for emphasis on the religious while showing off the material side of life.

This was recognized at the Missouri State Fair in its early days. Many persons remember religious services being conducted in the grandstand. Then there were the sacred concerts. One followed the dawn of a perfect autumn day September 23, 1917 when there was a grand concert of sacred music by the Thaviu band and grand opera singers and a community chorus of 300 voices under direction of Mrs. Helen G. Steele for whom Sedalia's Ladies' Musical Club was named.

There were others, too, but one of

particular note is recalled by Sedalians when Sacred Sunday was again one of the features of Fair Week. The service was held in the grandstand the evening of Sunday, August 20, 1922. It was conducted by the Rev. Charles Reign Scoville, noted evangelist of Chicago. Music for the occasion was furnished by a large choir and Poepping's Concert Band of St. Louis.

The guiding spirits of this service were the late Rev. A. W. Kokendoff, pastor of the First Christian Church, the director; and Mrs. Edwin F. Yancey, superintendent, who is still a music and cultural leader in Sedalia. It was no small task to prepare this program and both persons devoted much time and effort toward preparation of this event. Besides having charge of the Sunday service they supervised the programs given in the Woman's building each day.

This occurred when Arthur M. Hyde was governor, and W. D. Smith was secretary-manager. The latter, who is still a Sedalia resident, served in that capacity for 11 years during which time many sacred Sunday services were held.

Now reemphasis is being given by the present Fair management on religious observances. They will be accorded public approval.

In kind the same but differing in degree, the three separate services, Catholic, Protestant and Jewish, may truly be said to be a first in the manner of observing sacred Sundays at the Missouri State Fair.

The Washington Merry-Go-Round

Four Ironies About Justice Department

By Drew Pearson

WASHINGTON—Here are some ironies about the breast-beating of the Justice Department for a tough civil rights bill, a bill even tougher than now urged by the National Association for the Advancement of Colored People:

Irony No. 1—Attorney General Brownell and the Justice Department have played ball for four years with Sen. Jim Eastland of Mississippi, bitterest opponent of civil rights. No judges, U.S. attorneys or U.S. marshals have been appointed in Mississippi without his okay.

Irony No. 2—Attorney General Brownell gave private backstage encouragement last year to the move to oust the one Negro who is a member of the Republican National Committee, Perry Howard of Mississippi. Howard has been a national committeeman longer than anyone in history—33 years—a matter of pride to Negroes. Brownell encouraged the drive to oust him.

Irony No. 3—Brownell has been working to build up the Republican party in the south through E. O. Spencer, owner of the Walthall Hotel in Jackson, Miss., in which the Mississippi White Citizens Council was first organized. The council has had an office in Room 203 of the hotel. Brownell usually entertains Spencer in his home when the Mississippian comes to Washington.

Keeping Alive The Issue

Irony No. 4—For four years the Justice Department dragged its feet on civil rights, thereby making it an issue in the 1956 presidential election. Today the Justice Department is opposing the Senate Bill, thereby keeping civil rights an issue in the 1958 congressional election.

Sen. Tom Hennings, Missouri Democrat, whose great-grandfather was one of the biggest slaveholders in Georgia, developed some of the facts regarding this stalling in a withering cross-examination of Brownell last year.

"You have come up with no program during your four years until April 1. I believe," Senator Hennings challenged.

Brownell replied that he had worked on such civil rights as restaurant segregation, discrimination in the armed forces, and kindred measures.

"You know these were initiated in the preceding administration," Hennings was quick to point out.

"A great many of them, yes," Brownell admitted.

"We welcome your suggestion that there be a commission on civil rights in the department of justice," Hennings continued. "At my request on March 22, 1955, this letter was addressed to you."

He then read Brownell a letter one year old asking for his views on legislation proposing a civil rights commission.

"There was no reply from you whatsoever over a year ago relating to the establishment of a commission or a division," Hennings pressed.

Guest Editorial—

WORCESTER TELEGRAM: "So This Is Justice"—Mrs. William Evans caused a stir in Brockton Superior Court Thursday when she stood up in the crowded courtroom and shouted "So this is justice!" at the judge.

Mrs. Evans was all worked up, apparently. She had just watched the trial of the man who had run over and killed her 13-year-old daughter last February. The man was found guilty of drunken and dangerous driving. It was brought out that he had a previous reputation for drunken driving, although no official action had ever been taken against him. The district attorney and the assistant district attorney both recommended a jail sentence.

The judge, however, fined him \$150. Other than that, he will go free.

Fortunately, under state law, his license will be revoked—for a time, anyway. But the case brings up the whole question of the way Massachusetts courts dispense justice in auto accident cases. Sometimes their verdicts are hard to explain or understand.

Thought for Today

As every man hath received the gift, even so minister the same one to another, as good stewards of the manifold grace of God.

—I Peter 4:10.

Let not the emphasis of hospitality lie in bed and board; but let truth and love and honor and courtesy flow in all thy deeds.—Ralph Waldo Emerson.

Soft Spot in Middle East Program Shows

By James Marlow
Associated Press News Analyst
WASHINGTON (AP)—The soft spot in President Eisenhower's Middle East program shows up now in Syria, where pro-Soviet officers have grabbed control of the army.

That Eisenhower program was intended to stop the spread of communism into the Middle East. Eisenhower proposed it in a special message to Congress Jan. 5. Congress approved it March 7 in the form of a resolution which would let him:

Give economic aid and arms to Middle East countries and use American armed forces there to stop Communist aggression if an attacked country asked for such help.

Confronted with this, Communists were not likely to take a chance on direct attack in the Middle East. But they still had an alternative: to try to take over from within by subversion or even military means.

And Eisenhower's program had no direct answer for the question: What does the United States do if the Communists in any one country—or in one country after another—seized power by subversion?

Now the United States and its allies seem puzzled what to do about Syria. It still isn't clear whether the pro-Soviet officers' control of the army has made Syria a Russian satellite.

Eisenhower never pretended his program had all the answers for

keeping communism out of the area. But secretary of state Dulles seemed more optimistic. At least he did one time, and at another he didn't.

On Jan. 7, in an explanation to Congress of Eisenhower's program, Dulles pictured three perils from communism in the Middle East: outright armed attack, subversion and take-over by allure.

Billy Graham Sees Signs of Impending Conflict in World

NEW YORK (AP)—Evangelist Billy Graham says the world appears to be getting ready for a conflict that could destroy civilization.

Graham spoke before 17,000 at Madison Square Garden last night in another of his New York crusade meetings.

As signs of impending conflict, the evangelist pointed to the Confidential magazine scandal trial in Los Angeles and recent Communist gains in Syria and Indonesia.

"This crusade may be God's last call to this great nation," he said.

Graham urged "young people who like to fight" to join "the battle of the world of the flesh and the Devil."

At Graham's call, 555 persons stepped forward to make "decisions for Christ."

Ruth Millett Says

Wife Needs Husband's Help To Prevent Being Widow

Memo to middle-aged men: Judging from my mail, an increasing number of wives are worrying about the health of their husbands. To put it bluntly, these wives don't want to be widows.

But anxious as they are to look after your health there are some things they can't keep you from doing.

Your wife can see that your meals are well-balanced and easy on calories. But she can't keep you from raiding the icebox at night.

Your wife can cut down on her demands so that the budget isn't a constant worry to you. But she can't keep you from being extravagant in such matters as having to drive the latest model car.

Your wife can limit the number of nights the two of you go out each week so that you can get plenty of rest. But she can't keep you from bringing your business worries home with you.

Your wife can encourage you to get away from it all whenever you get the chance. But she can't keep you from turning a hunting or fishing trip into an endurance contest.

Dallas School Board Orders Segregation

DALLAS (AP)—Segregation will be enforced in Dallas this year and any student trying to enroll in any other than the proper school will be turned away. School Supt. W. T. White said yesterday.

"Schools, pursuant to instructions from the Board of Education, will be operated on a segregated basis," he said.

White said no action has been taken by the U.S. 5th Circuit Court of Appeals in New Orleans on the district's petition for a rehearing in the Dallas integration case.

Dallas was ordered to integrate "with all deliberate speed" in a July ruling.

Dulles said the first threat would be met "if need be by the armed forces of the United States." He predicted the other two would be thwarted by increased confidence and anti-Communist vigilance resulting from the shield of U.S. military protection and ready economic aid.

But Syria never accepted any aid under the Eisenhower program. It was getting arms from Russia and recently signed an agreement with the Soviets to get economic assistance from them.

Thus any confidence the Syrians developed was in Russia, not in the United States.

But what was Dulles' solution if Communists, despite his optimism to the contrary, did get control of a Mideast nation? He had an answer for that too.

The United States, he said, would not invade such a country but would learn to live with it, as the United States gets along with Communist Yugoslavia.

Yesterday the new Syrian army chief of staff, Maj. Gen. Afif Bizry deriding American leadership although speaking kindly of Eisenhower, accused this country of directing an assassination plot against members of the Syrian government.

Bizry was asked at a news conference in Syria if he was a Communist or pro-Soviet. He avoided a direct answer, but said: "Is it forbidden for a person to carry thoughts?"

The Grange Headquarters

Farmers' Protests Halt Project to Tear Down

By Esther Van Wagoner Tufty
Of Our Washington Bureau
WASHINGTON—When many a farmer comes to Washington he

adds to the usual sightseeing tour "the headquarters of my Grange" which is located near the White House on historic Jackson Place.

Now that building . . . which cost the farmer-members \$500,000 . . . may be torn down by the General Services Administration to make way for a new federal building project to house certain White House personnel and others.

Protests are rolling in from all over the country. (Some 857,000 farmers in 37 states belong to the 7,000 local granges.)

The impact on Congress has put 35 bills of protest into the House hopper and one of the four bills in the Senate is co-sponsored by ten senators.

Ever since 1941, many a farmer's wife has baked pies and cakes and other goodies for those penny-suppers held by her local Grange to help finance the Washington headquarters! In the same building are four other non-governmental Farm organizations and three dozen agricultural publications.

GSA has already acquired title to the property as of January 25th, but Congress stopped action, at least temporarily, with a rider to the Independent Offices Appropriation bill that no funds would be used on this particular project.

A General Services Administration spokesman refutes the charge that the Grange 50 by 70 foot lot will be used "for just a lawn or garden" although admitting that the architectural drawing showed shrubbery on that location.

Thinking It Over

By Robert L. Dieffenbacher, D.D.
Worry has been defined in many ways, but it is spiritually a lack of faith in God. When dark clouds of despair hover over us, we try to run away from the impending storm. We take our troubles in our own hands and worry about them. We try to find our own solutions by skimming over the surface of our worries.

When this human procedure does not work (and it is seldom satisfactory) we allow our difficulties to pile up into forbidding mountains of fear. Ultimately we have to admit that we cannot cope with our heap of human failure. We then turn to God in real humility.

God's way of dealing with us is to go to the heart of the person rather than to the mountain of material error. He changes us and erases worry by giving courage, hope and faith. When fear is replaced by confidence in God our troubles disappear without our realizing where they went.

Dr. Jordan Says

Same Name Shared By Unrelated Diseases

By Edwin P. Jordan, M.D.

One of our more curious diseases is the subject of several inquiries. One from Mrs. E. asks for some information concerning the symptoms and course of diabetes insipidus and whether there is a cure and if it is common.

It is not common in the usual sense of the word. Probably the principal symptom of diabetes insipidus is excessive thirst associated with the passage of extremely large quantities of urine. Unlike the more common diabetes mellitus, the urine does not contain excessive quantities of sugar. Actually the two diseases, though sharing part of the same name, are probably unrelated.

Diabetes insipidus is somewhat more frequent in young people and males. A family tendency to the

disease has been suggested as responsible in the majority of cases, but the exact method of inheritance is not always clear.

The symptoms usually develop gradually, although sudden onsets have been reported. A victim may pass nearly four gallons of urine in 24 hours.

The inconvenience of this disease is obvious. The appetite is likely to be normal, which is different from that in the common form of sugar diabetes in which hunger is likely to be excessive. People have been known to live with diabetes insipidus for 50 years; some spontaneous recoveries have taken place.

The location of the trouble is fairly well known. It is agreed that the source lies in a specific portion of the brain. Irritation or injury of this region will act on an area of the pituitary gland, reduce its hormone production and produce the symptoms of diabetes insipidus.

If a specific cause, such as a tumor of the pituitary is found, surgery may be attempted. If not, the administration of hormone obtained from the pituitary gland usually brings relief of symptoms which may last for many hours. These treatments, however, have to be repeated and do not bring about a permanent cure.

Thus, except for those who can be treated surgically, diabetes insipidus is likely to remain a serious problem.

Couple Finds Rings Valued At \$5,000

RUIDOSO, N.M. (AP)—When Mrs. Florence Lewis stepped out of her car at a parking lot she almost stepped on a diamond dinner ring. She showed it to her husband and they decided there was a mate to it. Sure enough, less than a foot away was a diamond engagement ring.

A jeweler appraised the rings at \$2,500 each.

Notice of the rings being found was posted but officials say no one has even asked about them.

Carnival Men Take Holiday At State Fair

It was sort of a "Busman's Holiday" at the Missouri State Fair today for "Jack Wilson and Izzie" Cetlin, owners of the Cetlin-Wilson Shows and Midway.

The two men, who have been in partnership for forty years and have played all of the major fairs in the East and Midwest, walked off their midway for a tour of agricultural exhibits and various displays set up throughout the fairgrounds.

Wilson, a quiet person approaching his seventy's, commented that of all the fairs his show plays he has never had much time to visit the agricultural exhibits. "But today I thought I'd depart from my normal 14 to 16 hours working schedule and get around a bit," said Wilson. Cetlin, also understandably a busy person, consented to go along.

Following an afternoon of touring the fairgrounds, Wilson said a new milking parlor just north of the Coliseum containing the latest sanitary milk processing equipment caused him to reminisce of days some fifty years ago when his father got him up at four o'clock in the morning to milk on a farm in Petersburg, Va.

But as the saying goes, Jack couldn't be kept down on the farm, and the smell of sawdust and sound of the Callopie lured him away. Cetlin also comes from Petersburg, Va., where the pair teamed up on their first truck show. Twelve years ago, they put the show into railroad cars and have continually expanded their traveling schedule.

The Cetlin-Wilson Shows have grown until now they have 20 shows and 24 rides. At the fair they are featuring Sally Rand with her dancing review and rock-and-roll show. "America," the Russian-language magazine published by the U.S. Information Agency in Germany for distribution behind the iron curtain, selected the Cetlin-Wilson carnival and midway for a feature article and photo spread as a basic form of Americana. The article portrayed the carnival as appearing every year at fairs throughout America.

Japanese Drop Plans To File Against Pilot For Death of Woman

MITO, Japan (AP)—The Mito district procurator's office announced today it has dropped plans to file charges against an American pilot whose plane struck and killed a Japanese woman Aug. 2.

The announcement said that a thorough investigation had determined that 1st Lt. John L. Gordon of Erie, Pa., was performing "official duty" at the time and was not stunting, as some accounts had charged.

U.S. Air Force spokesmen said no decision had been made yet on whether Gordon might face charges in a military court, but earlier Air Force announcements said the woman's death was accidental.

Gordon's L20 liaison plane struck and killed Mrs. Jaru Hojo, 63, during takeoff from the Mito gunnery range, 65 miles north of Tokyo. Mrs. Hojo was riding a bicycle.

Test Postponed Again

ATOMIC TEST SITE, Nev. (AP)—The postponement routine has hit the planned 13th atomic test in the 1957 series, following 19 postponements in getting off No. 12.

The 13th, code-named "Doppler," was postponed again yesterday, this time because a leak of helium gas developed in the balloon which was to carry it aloft over the desert floor for detonation.

"Doppler," a relatively small blast, is now scheduled for 5:30 a.m. tomorrow.

Costly

Development of modern turbo-jets cost from \$40,000,000 to \$50,000,000 and required three to five years, according to the Encyclopedia Britannica.

Weather Outlook

The weather maps below give the U.S. Weather Bureau's long-range forecast from now until mid-September. It is not a specific forecast in the usual sense, but an ESTIMATE of the average temperatures and precipitation for the period.

EXPECTED TEMPERATURES
Temperatures from now until mid-September are expected to average below seasonal normals in the Pacific Northwest, Great Lakes area, and northern New England. Above normal temperatures are expected in the southern half of the nation from the Rocky Mountains to the Atlantic Coast, with greatest departures in the Central Plains. In other areas near normal averages are anticipated.

EXPECTED PRECIPITATION
Rainfall from now to mid-September is expected to exceed normal in the Great Lakes region, upper Mississippi Valley, far Southwest and Florida. Subnormal amounts are indicated in the Northwest, Southern Plains, and Middle Atlantic states. Elsewhere precipitation is expected to be not far from normal.

Held in Kansas City

Sedalia Job's Daughters Sing at International Meet

At the informal opening of the 37th session of International Order of Job's Daughters held in Kansas City Aug. 15 through 17 girls from Bethel No. 15, Sedalia, sang: "Missouri" in response to greetings from Gov. James T. Blair Jr., and later sang two other selections, "Somebody Bigger Than You and I" and "When You Wish Upon a Star."

The Bible ceremony was under the direction of the supreme chaplain, Mrs. Jerry Brown, past guardian of the State of Missouri and past guardian of Bethel No. 15. Wearing white robes and carrying small white Bibles, the girls walked through a large frame representing the Holy Bible. The door, as the cover of the Bible, opened and closed as each girl stepped through the frame. They walked into two cross formations at left and right angles from the altar as Mrs. Brown entered and Rita Napier, senior princess of Bethel 15, carried the large Bible from the altar. Soloist for the ceremony was Miss Wanda White, past honored queen of Bethel No. 15.

On Thursday morning the girls of Bethel No. 15, participated in another Bible ceremony under the direction of Mrs. Brown, forming a triangle around the altar. Donna Anderson, honored queen, Bethel 15, Rita Napier and Jackie Wilson, junior princesses, in purple robes made the points and the other girls were in white robes. Miss White also sang for this ceremony.

After the Job's Daughters were extended greetings, the girls of choir, directed by Frances Rudd, choir director of Bethel No. 15, sang "True Love" dedicated to all Job's Daughters.

On Thursday evening 15 Bethel drill teams were in competitive

Plane Has False Alarm

NEW YORK (AP)—A flashing red light in the cockpit of an Eastern Air Lines Constellation warned of landing gear trouble as the plane came into LaGuardia Field with 27 passengers and a crew of five yesterday.

For 70 minutes the plane circled the control tower before ground personnel assured the crew the landing gear was in place. Then the big ship landed without incident.

The false danger signal was traced to a defect in the electrical system.

The plane arrived from Boston en route to New Orleans.

Over 700 Children Visit US Air Force Exhibit at State Fair

More than 700 children visited the United States Air Force Exhibit on the first day of the Missouri State Fair. The Air Force "Dream Rocket" was the chief scene of interest with the youngsters who got a simulated flight around the world in the little rocket. Each child flying in the rocket was given a certificate making him or her an honorary jet pilot in the United States Air Force. The exhibit is from Wright-Patterson Air Force Base, Ohio, and is appearing at the fair under the auspices of the 340th Bomb Wing at Whiteman Air Force Base, Missouri. Youngsters flying in the rocket on the first day of the fair received an unexpected treat when Pinky Lee, famed children's television star, came down and qualified as an honorary jet pilot in the United States Air Force, too.

Hoot Song Wins Two Heats In Hambletonian Preview

Sets Record For Season In One Heat

Three Others Boost Stock in Classic With a Good Race

Hoot Song, a lightning-fast filly from Indiana, projected herself squarely in the middle of next week's \$100,000 Hambletonian picture by winning the \$20,000 Matron Stakes, the Hambletonian Preview, in straight heats at the Missouri State Fair Tuesday.

With Ralph Baldwin at the reins, Hoot Song won the Matron in 2:03 2/5 and 2:01 3/4 for the mile heats. The latter clocking was a season's record for a filly and the

fastest time registered this year by a Hambletonian eligible. The harness racing classic will be raced at Du Quoin, Ill., a week from today. Hoot Song is owned by Two Gaits Farm, Carmel, Ind.

Also boosting their Hambletonian stock in the Matron Stakes were Storm Cloud, Major Newport and Mudge Hanover. All flashed at least one good heat in finishing second and third behind the filly and all three can be expected to provide top competition a week hence.

Hoot Song, whose manners have been inconsistent of late, laid off the early pace in both heats and then came on strong in the stretch to take both. In the opener she swept past Ned Bower's Storm for a handy win and in the finale she overcame the early lead of Major Newport.

Sedalia's own Frank Ervin, driving Yankee Lass, took the \$8,233 Breeder's Filly Stake for 2-year-old trotters despite trouble in the second heat. Yankee Lass clocked the first heat in 2:05 4/5 and 2:05 for the second after the second heat was called back for a restart. Lucy Song and Anna Dares shared the runnerup spots.

As the horses started down the stretch to the starting line in the second heat, Bill Brown's Lucy Song went off stride in the middle of the track and she raked into My Darling driven by Bob Walker. In the mixup one horse stepped through the right wheel on Ervin's sulky. My Darling and Lucy Song were tied up 150 yards before reaching the starting line, while Ervin's sulky went bumping across the line and collapsed a short distance further.

The starting gate operators declared a "no start" and as soon as new sulkeys could be obtained from the race barns, the re-start was made. Ervin added insult to injury by winning the heat, Lucy Song moving in on second place.

An Ka Da, recently converted from the trot, won the 19 class pace in 2:04 2/5 and 2:02 3/5 with Stan Stucker driving for the Ward Brothers of Normal, Ill., and Ruth Ann Barnes, property of W. F. Burns, Savannah, Mo., won the 19 trot for Howard McCullough.

The John Sam Williamson trophy for the 28-class pace was presented by Commissioner of Agriculture Williamson; the United States Senator Stuart Symington trophy for the Matron Stakes was presented by William F. Brown; the United States Senator Thomas C. Hennings Jr., trophy was presented by D. Kelly Scruton for the Breeders' Filly Stake; and Miss Mary Alice McLaughlin presented the Charles O. Bolt Memorial Trophy for the 19-class trot, Missouri owned horses.

Drivers Start Preparations For Fair's 3 Feature Races

A record number of drivers this week, prepared their cars for Missouri's three outstanding automobile racing classics, which take over the State Fair spotlight here this weekend.

Auto racing officials at the fair believe that a total of 100 or more cars and drivers may be in action during the three race days.

If last year is to be used as a standard, top crowd interest will center in the late model stock car and sports car 100-mile race slated on the fairgrounds mile oval Sunday afternoon, Aug. 25.

Last year a record-shattering 18,000 fans—largest crowd ever to witness a single attraction in the fair's 54-year history—saw diminutive R. G. (Shorty) Eberts, the 5-foot-4 Avondale, Mo., garage op-

SHORTY EBERTS—Seeking to repeat his 1956 victory in the charter running of the Missouri International race for late model stock cars and sports cars will be Shorty Eberts, Avondale, Mo., garage owner who is a favorite of State Fair auto racing fans.

Traffic Lady Scores Easy In Fair Test

Traffic Lady ran her winning streak to three and prince Lullwater boosted his Hambletonian stock as the Grand Circuit of harness racing opened a 5-day stand at the Missouri State Fair yesterday.

Driven by Johnny Simpson, Traffic Lady won the \$5,545 breeder's filly stake for 2-year-old pacers with ease, whipping Reine Byrd by three lengths in the opener and High Time by a half length in the second dash.

The daughter of Tra Heel, owned by the ABC Freight Forwarding stable of New York City, paced the initial mile in 2:04 3/5 and the closer in 2:03 4/5. She had previously won Grand Circuit stakes at the Illinois State Fair and at Sportsman's Park in Chicago.

Prince Lullwater, owned by Walter T. Candler of Decatur, Ga., and driven by Del Miller, won the \$1,000 28 class trot in straight heats as he made his next to last prep for next week's \$100,000 Hambletonian stake at Du Quoin, Ill.

The Son of Scotland won handily in 2:06 1/5 and back in 2:06 2/5 with fast quarters at the end of each mile. He will make one more start at the Missouri State Fair—on Friday before shipping to Du Quoin.

The Western Breeder's Futurity was handicapped by small fields in both divisions. S. S. Thomas was the only entrant in the 3-year-old trot and registered a walkover. Cheyenne Goose, property of E. C. Moriarty, Wichita, Kan., scored a straight heat win over Helga Trust in the pace. They were the only two entrants.

erator, push his 1956 Ford to victory in the International classic in the world record time of one hour, 23:19.48 for the 100 miles.

Eberts captured the lead only three laps from the checkered flag when Don White of Keokuk, Ia., experienced engine trouble. White, 1954-55 IMCA champion, had held a slender lead since early in the race after he set a world record in the one lap time trials of 47.33 seconds.

White has entered a 1957 Ford in this year's race, while another former champion, Ernie Derr of Ft. Madison, Ia., 1953 titleholder, will drive a 1957 Pontiac. More than 30 cars are expected to enter.

An unusual entry in the race is the Jaguar convertible to be driven by Eddie Loetscher, St. Louis speedway car driver. The car competed last year in the famed LeMans, France, 24-hour Grand Prix of Endurance and this spring in the Sebring, Fla., 12-hour sports car classic.

Also on the weekend program is the third annual Missouri Futurity for speedway cars, slated on the mile track Saturday, Aug. 24. About half of the cars entered by some two score of the nation's leading drivers are Offenhausen's.

Five 10-mile heat races are scheduled, with the four top cars in each race qualifying for a spot in the 50-mile feature. Going in quest of \$5,000 in prize money and the beautiful Governor's Trophy will be Hershel Wagner of Hickman Mills, Mo., last year's winner; Bobby Grim of Indianapolis, seeking his third straight IMCA speedway car championship; Don Carr of Indianapolis, now battling Grim for the top rung on the 1957 ladder to the title, and many others.

Kicking off the weekend speedfest will be a program of modified stock car racing Friday night on the half mile track, bringing together the top cars in another series of races which will be capped by a 50-lap feature with the state jolopy championship at stake.

Has Qualifying Lead

ST. LOUIS — Phil Rodgers, a 19-year-old from LaJolla, Calif., and the University of Houston, ticked off a three-under-par 68 yesterday and held the midway lead in qualifying play for the Western Amateur golf championship.

It was only the second sub-par round thus far in the tournament over old Warson Country Club's long 6,902 yards. Par is 35-36-71 and Rodgers had a 33-35. The 68, coupled with his first-day 74, gave him a 141 total for 36 holes.

Sedalians Win Honors In Horse Show

Crowds Increase At State Fair Event; TV Star Entertains

Sedalians scored in the Missouri State Fair horse show, Tuesday night, with one first, a second, third and fifth, Miss Judy Jiedel, in the Three-Gaited 15.2 and over, amateur to ride class, took first place with her horse Society Scandale.

Arthur Simmons, Mexico, Mo., riding Revelry King, owned by W. C. Madlener, Wichita, Kan., took the top honors in the Five-Gaited Stallion class at the Missouri State Fair Horse Show, Tuesday night.

With the type of animals being shown, added entertainment furnished by Brenda Lee, recording and television star, and Lou Brees and his orchestra, the slim crowds of a few years ago are growing. The crowd of nearly 2,500 which attended was the equal of any show crowd of 1957.

In the Walking Horses Mares class, Go Boy's Prissy Miss, owned by Mr. and Mrs. Barkley Brock, Clinton, and ridden by Barkley was first, closely contested by Mau Gray Diane, owned by Lawrence Twenter of Sedalia and shown by John Self.

The Five-Gaited Gelding amateur class, with Denmark's Genius, owned by Bainbridge Stable, Springfield, Mo., and ridden by Mrs. Jesse Bain, Jr., was tied first. Great Doctor, owned by Dr. R. H. Blum, Lee's Summit, ridden by Evelyn Blum, a close second.

Other Sedalians to win were Mrs. Duane Ewing, with Night Flyer, scoring a third in the Five-Gaited Gelding, Amateurs to ride class; and Kenzie Miller with Stinger scored a fifth in the Parade Amateur.

The show continues through Friday night with the fine horses of the Quarter Horse Show, closing Sunday night with the Saddle Club show.

Little LEAGUERS

The Little League season will bow out this coming week with a full schedule for each night. Championship games will be played for the "A" and "B" leagues. The season for the major leagues was concluded last week with the Sedalia Ice and Cold Storage team winning the championship.

On Monday, Aug. 26, the four top "B" teams will compete in a Shaughnessy play-off to determine who goes in the finals the following night. At 7 p.m. the Sedalia Ice team will oppose the Optimist. At 8:30, the Jaycees will play the Adco "B's".

The winners of the two games will play at 7 p.m. Tuesday, Aug. 27, at the Little League Stadium. At 8:30 p.m. the same evening, the Lions "A's" will meet the Optimist "A's" for the city championship in this league.

On Wednesday, Aug. 12, the 12-year-old All-Star game will be played at 7:30 p.m. The 12 year olds will be divided into two teams based on ability, hitting averages and positions. Rosters for these two teams will be announced in tomorrow's Sedalia Democrat-Capital. Bill Hopkins, manager of the Sedalia Ice and Cold Storage team, which won both the city championship and the league championship in the major league this year, will manage the "Blues". Omer Simon, manager of the Adco team, which finished second in both the league and city play-offs, will head up the "Reds" in the 12 year old All-Star tilt.

The winner of the All-Star game will take on the managers and Little League officials in a game on Thursday, Aug. 29, at 7:30 p.m. at the Little League Stadium.

Warrensburg Jaycees Have Softball Tourney Scheduled Next Week

The first Warrensburg Junior Chamber of Commerce softball tournament will be held Aug. 26-31 at Grover Memorial Park in Warrensburg with seven teams taking part.

Games will be played nightly, Monday through Thursday, and on Saturday night. Friday night is being reserved to play rain-out games, if any. Two games will be played each week night, with three games on Saturday night. Week-day game times will be 7 p.m. and 8:45 p.m. On Saturday, the consolation game will start at 6 p.m.; the playoff for third place at 7:45; and the championship game at 9:30 o'clock.

Teams entered are the Warrensburg Jaycees, the Headquarters Company of the Missouri National Guard at Warrensburg, the Warrensburg Rentals, the Holden Jaycees, the Higginsville Jaycees, and two teams from the Whiteman Air Force Base—the Periodic Maintenance Squadron, and Headquarters Squadron, 340th Bomb Wing.

Trophies will be presented the first three place winners, with a plaque to the consolation winner.

'Struggling Old Man' Musial Keeps Cards Alive; Goes for 7th Batting Crown

The Associated Press

Stan Musial, who at 36 calls himself "just a struggling old man," is showing the kids how it's done as he goes for a seventh batting crown while keeping the St. Louis Cardinals alive in the National League race.

The Man, who last won the title in 1952 for a three-year run at the top, was 3-for-7, including a pair of home runs, as the Cards swept a two-night pair at New York with 4-3 and 3-2 victories.

That burst added six points to Musial's average and put him at .339 while his pursuers sagged. The Giants' Willie Mays was 2-for-7 for .327; Pittsburgh's Dick Groat was 0-for-4 for .327. Milwaukee's Hank Aaron was 1-for-4, slipping to .326.

While Aaron's slump continues, the defending champ counted an insurance run with his line single as the Braves scored twice in the ninth and beat Pittsburgh 3-1. That left Milwaukee six games ahead of St. Louis.

Third-place Brooklyn, seven games back, took two from the Cincinnati Redlegs, winning 11-5 and 6-5, in 12 innings. The Chicago Cubs split a pair at Philadelphia, winning 5-2 after a 2-1, 10-inning defeat.

In the American, Bob Keegan became the first Chicago pitcher to gain a no-hitter in 20 years, beating Washington 6-0 after the Senators had taken the first game of the two-nighter 5-4.

The New York Yankees were shut out for only the second time this season, 1-0 at Kansas City despite Bob Turley's two-hitter.

The AL bat race saw the leaders go hitless. Boston's Ted Williams stands at .300 after going 0-for-2 in a 5-4 Cleveland victory. Yankee Mickey Mantle, 0-for-4, is at .381.

Detroit defeated Baltimore 5-1 in the other AL games.

The Braves were held to three hits and an unearned run for eight innings by Vern Law, then went to work on reliever Luis Arroyo and Elroy Face as Red Schoendienst singled and scored the clincher on Ed Mathews' triple. Warren Spahn won his 15th with a seven-inning.

Duke Snider, who had hit a three-run homer to open a five-run third in the opener, socked his 33rd home run for the Dodgers' nightcap clincher. Gil Hodges also homered in the second game for the Braves with Don Drysdale winning his 11th in relief. Johnny Klippstein lost it.

Hodges' RBI single gave the Dodgers a 6-5 lead in the opener, but they then went on to add four

in the eighth off Raul Sanchez. Ed Roebuck won with three-hit pitching in five relief innings and also hit his first major league homer.

Don Mossi won his 10th for the Indians, rolling with a four-hitter until the Red Sox scored three in the ninth that brought on Early Wynn. Gene Woodling drove in two runs with four hits, one a homer, as Tom Brewer lost it for a 14-10 record. Jim Piersall homered for Boston.

Jim Bunning won his 15th. Ray Boone drove in three runs for the Tigers with a home run and a triple.

Play-Park Area Being Prepared At Sacred Heart

Construction work on a new playground-parking lot will soon be completed at Sacred Heart Church and school.

The area under construction is located directly behind the church at Third and Monticue and extends from Third Street to the alley between Third and Fourth.

The lot has been curbed with concrete on three sides and poles have been set for the cyclone type fence that will enclose the area. There will be automobile entrances on the Third Street and alley sides of the lot.

The lot itself will be covered with asphalt hot mix two inches thick. It will be used as a playground on school days and as a parking lot for the church on Sunday.

The major part of the work and materials are being donated by parishioners who are in construction businesses.

Has Rundown On Morning TV Programs

By WILLIAM GLOVER
NEW YORK (AP)—Approximately two-thirds of the nation's average TV audience never gets a chance to see the major chunk of megacycle enterprise known as the weekday morning programs.

In this company are the folks who go to work, or are off in summer camps. (Not included in the statistics are the ones who deliberately ignore the big glass eye until after dinner).

As a special service to this neglected group, here is a minute-by-minute report on what was doing on the airwaves from 7:30 a.m. to noon EDT one typical morning.

As the set warmed to work, there was Ned Calmer on CBS with all sorts of news. A few minutes later "Today's" Jack Lescault over on NBC reported the news.

At 8 a.m. the adolescent element of the audience started getting saturation attention. Calmer yielded to Capt. Kangaroo coaxing a rooster to crow, and the just-awakened ABC channel brought Tinker Tom to the waiting moppets.

NBC, sticking with the adult customers, had Dave Garroway, fresh from vacation, interviewing an Air Force major.

Josie McCarthy then emerged on "Today" with a menu for dinner tonight.

ABC, completely dedicated to the kiddies unreeling a steady stream of animated cartoons.

A change of pace around the dial became noticeable soon after 9 a.m. A film episode of "My Little Margie" descended on CBS followed by a repeat of Stu Erwin capers.

By 10 a.m., ABC was firmly involved in a Western film, the progress of which could be reliably checked by tuning a line of talk every 15 minutes.

Fred Waring, in mood of relaxed precision, moved onto CBS with vocals and violins, just as Arlene Francis unveiled another installment of her new show for NBC.

Steadfastly spinning the dial on, the viewer's kaleidoscope became a sequence of quiz shows on NBC (Jan Murray, Bill Cullen); Peter Lind Hayes trying on a series of hats in place of Arthur Godfrey on CBS.

The local Dumont station, hooked up with some other independent stations, brought in the morning's principal change of pace with on-the-spot coverage of the Senate's Labor Committee investigation.

ABC, the cattle situation cleaned up, brought its morning stint to windup with film adventure in the skies.

NBC, fighting hard for the quiz fans, submitted Bob Barker hilariously agog over "Truth or Consequences." The Senate hearing went on. The gavel finally rapped for noon recess.

I thought of the people at work, or off in camp. They didn't know what they were missing.

Fish Continue As Top Exhibit In Wildlife

Although the Conservation Commission's Wildlife Pavilion at the State Fair is sporting six new exhibits this year, the most popular display remains the wildlife of Missouri's woods and streams.

Exhibits come and go, but one trooper, "Old Blue" the channel catfish, bids fair to take some sort of record. Commission hatchery men do not know how old the giant catfish is, but he has been a "regular" at the fair for at least 15 years, and seemingly plans to make it another decade and a half before he retires. Blue was first taken on a trotline below Osceola dam, back in 1936.

A finny side-kick, "Old Drum," the drum or white perch, is another record holder. He's outlived all his brothers and has accompanied Old Blue to the fair for 15 years, too.

The single bowfin, or grindle, on display at the Pavilion is another old timer. He was first netted by Conservation Commission men in the Mississippi river, back in the 1930's and has been a regular since then.

New exhibits come and go, but these patriarchs of the piscatorial world seemingly will go on forever and the visitors to the fair will always get a kick out of standing around the fish pool and exclaiming: "Boy! Wouldn't you like to tie onto one like that!"

Will Write Screen Play For His Book

By BOB THOMAS

HOLLYWOOD (AP)—"I no longer have a lifetime to look forward to and take care of. At the most, it is 20 or 25 years. So now I can afford to take chances."

This, Erich Maria Remarque reasons, is why he agreed to write the screen play for his book, "A Time To Love and a Time To Die" and act in it, too. At latest report, the film is being called "There's a Time To Love"—don't ask why.

I came across the famed novelist, handsome at 59, as he had finished the last pages of the screen play and was cleaning out his desk.

He proved to be an excellent talker. It is easy to see how his charm has fascinated such famous women as Marlene Dietrich, Greta Garbo and Paulette Goddard.

About his screen writing—"This is another departure for me. The first was last year when I went to Berlin to open my first play, 'The Last Station'."

"Before we opened, the cast came and asked me what they should do if the audience started throwing stones. We just didn't know what they would do. Here was a story of the last days of Berlin before the fall of Hitler. There were scenes of the rape of women and we knew there would be women in the audience who had been through such things. How would they react?"

"The play had 35 curtain calls."

It was a great hit and encouraged me to attempt this screen play.

Why hasn't he adapted his novels before? Six of the eight have been brought to the screen.

"Because I reach the point in the writing of a novel when I could become violently ill if I had to look at it again," he sighed. "Although I have lived in this country over 20 years, I still write in German and have someone else translate. I couldn't stand to look at the novel myself."

Another reason for the film project: To escape the humid New York summer. Universal-International came up with the deal at just the right time.

It's the first time in 30 years he has worked in an office, he remarked. The last was when he edited a sports car magazine in Germany. He took time out from his work to write a novel, "All Quiet on the Western Front."

Remarque writes the hard way—pencil on paper. "I never learned to type," he explained. "When I was an editor in Germany, inflation had wiped out everyone's earnings and labor was cheap. I swore I would never

NYLON! NYLON! NYLON!

Stronger, safer, longer-lasting!

GOOD YEAR

Triple-Tough 3-T
Nylon DeLuxe
Super-Cushion

\$19.95

Hot summer highways help shorten the life of average tires. That's where 3-T Nylon comes in. Pound for pound it's stronger than steel, and it's heat-resisting—runs cooler even on long trips because Goodyear Triple-Tempers Nylon Cord by an exclusive process involving precisely controlled Tension, Temperature and Time.

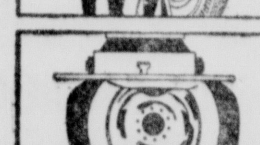

You'll get a stronger, safer, longer-lasting tire at an ordinary tire price if you deal now for 3-T Nylon DeLuxe Super-Cushions while the SALE is on! Hurry! Value was never higher.

As low as \$1.75 a week puts you on 3-T NYLONS!

PROVED BETTER BY DRAMATIC TESTS!

Unharmful by pounding. A mounted jack-hammer pounded it for 34 hours. Over a million blows didn't break or harm a single 3-T Nylon Cord.

Unharmful by crushing. We applied 31,150 lbs. of pressure and managed only to crush the rim. The tire came out undamaged and ready for road service.

Safer traction every way! For sure-footedness Goodyear combines (1) saw tooth rib edges with (2) deep Stop-Notches. You get superb traction from 3-T Nylon DeLuxe Super-Cushions.

Naval Hero Of Britain Is Dead

OSLO (AP)—Lord Mountbatten, legendary British naval hero, died yesterday at his mountain cottage at Gollia in central Norway. He was 76.

Born Edward Ratcliffe Garth Russell Evans, he was best known as "Evans of the Broke." The Broke was a British warship in World War I whose crew—led by Evans—figured in a hand-to-hand fight with German raiders.

Lord Mountbatten, whose life in antartic adventures, he joined was packed with high adventure

and heroism, ran away from home at the age of 8 with a bold boyish plan to sail the Spanish Main in a Thames River barge. He was caught—and spanked. But his love of the sea persisted.

Sent to train for the merchant navy, he won Queen Victoria's cadetship and went into the royal navy. He soon saw action—in the Boxer rebellion.

In 1909, having had experience in antartic adventures, he joined Capt. Robert Scott as second in

command of the ill-fated trip to try to reach the South Pole.

Evans and two companions were sent back to the ship Terra Nova when Scott's supplies ran short. Evans and the sailors trudged 900 miles through blizzards and sub-zero temperatures. After long suffering and near death they reached the ship. With Scott dead, Evans took the ship back to England.

For his heroism with Scott he was jumped two ranks and made a commander.

In 1917, while commanding the destroyer Broke in the Battle of Jutland, he engaged six German destroyers. Evans sank two of them and then came the order seldom heard in modern naval warfare: "Boarders on the fo'castle."

Frenzied Germans had jumped to the Broke's deck. Led by Evans the British seamen poured a deadly stream of fire from revolvers and rifles into the pack of Germans. The Germans who were not killed were hurled overboard by Evans and his men.

Evans was promoted to captain the next day.

During World War II he directed the organization of London's air raid shelters.

Doctor Back From Flight Into Space

FARGO, N.D. — Maj. David G. Simons, back from a balloon flight to a region where the stars don't twinkle at night and the day time sky is purple-black, today slept off his vigil with outer space.

Simons, a nervy Pennsylvania with a yen for the unknown, brought his huge plastic bag to earth in a flax field on the border between North and South Dakota yesterday after an unprecedented, 32-hour flight to the top of the atmosphere.

Simons, a 34-year-old father of four, ascended to altitudes over 100,000 feet — 19 miles. Upon landing, Simons cut loose the gondola and the balloon billowed up again to an altitude of about 1,500 feet. It landed three miles to the west, where souvenir hunters later tore it to pieces.

Radar trackers estimated the balloon carried Simons to a record-breaking 102,000-foot level. If confirmed by later calibration of instruments in the balloon, this would be 6,000 feet higher than Capt. Joseph Kittinger rose in June while testing equipment Simons used.

Next step in the Air Force's projected conquest of space will be a four-or five-man balloon trip to similar altitudes in a large gondola.

Simons' boss Col. John P. Stapp, of rocket sled fame, said he would present the idea to the Air Force soon. Stapp said Simons' flight proved it is safe for man to fly to outer space.

Information gained, he said, will push forward future manned missile flights.

Flown to the Air Force's make-shift headquarters at the airport here, Simons grabbed a pair of electric shavers, his tooth brush and a bar of soap and restored a little of the comfort he had missed since entering his tiny gondola Sunday. He was then flown to Minneapolis for a long sleep.

Munching a hamburger, Simons, a native of Pennsylvania, called his wife at their home at Holloman Air Force Base, Alamogordo, N.M., where he is chief of space biology.

Suspended in a tiny aluminum capsule beneath the block-long balloon as it was launched from a huge, open pit iron mine at Crosby, Minn., Monday morning, Simons floated lazily upward. He hovered over central Minnesota during the day before moving over South and North Dakota.

Stepping Stone

Six men have used the office of Secretary of State as a stepping stone to the Presidency of the United States: Jefferson, Madison, Monroe, John Quincy Adams, Van Buren and Buchanan.

US Questions Citizenship Of Couple

WASHINGTON — The United States wants to find out whether Martha Dodd Stern and her husband — both named as Russian spies — have renounced their American citizenship.

The couple recently obtained Paraguayan passports. They are now in Prague, capital of Communist Czechoslovakia, with their 12-year-old son.

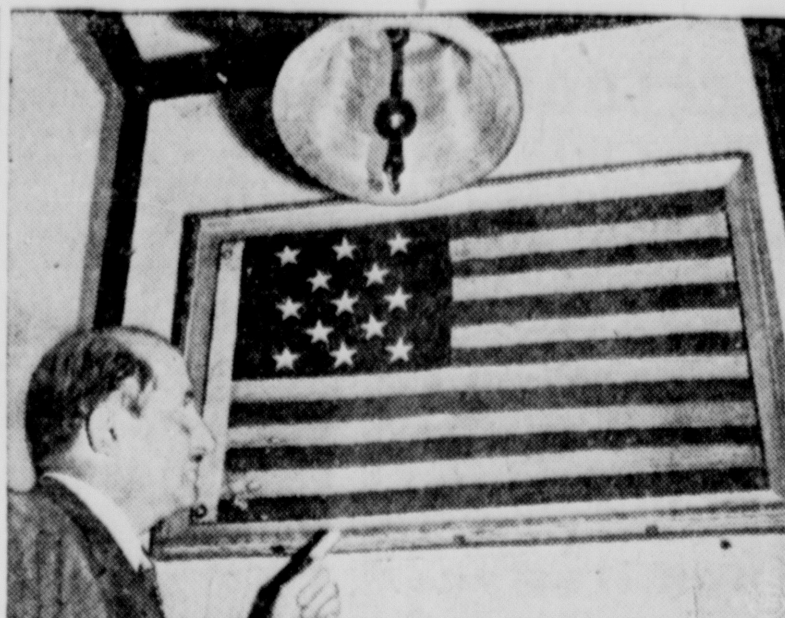

A State Department spokesman was asked yesterday about reports the couple relinquished U.S. citizenship before leaving Mexico.

"We have no information on that," the spokesman said. "We are looking into it."

Mrs. Stern is the daughter of the late William E. Dodd, U.S. ambassador to Germany from 1933 to 1938. Her husband is Alfred K. Stern, a former New York investment broker.

The House Committee on Un-American Activities said last Saturday the two were named as Soviet agents in testimony by Boris Morros, a counterspy for the FBI. Before leaving Mexico, the Sterns had faced possible extradition to New York to testify at a federal grand jury investigation into espionage.

Yesterday, a spokesman for the U.S. Embassy at Prague said the Sterns arrived there July 21, and that Stern said they were tourists not fugitives. The embassy spokesman said Stern described

OLD "OLD GLORY" FOR IKE—Scarred by seven bullet holes from the Revolutionary War, this historic flag has been offered to President Eisenhower by its owner, Sidney L. De Love, of Chicago. A collector of American historical objects, De Love, left, served on General Eisenhower's World War II SHARP staff as a colonel. He says the 13-star flag was probably made by some soldier's wife or sweetheart before a Revolutionary unit marched off to war. The first official flag, adopted later, had the stars in a circle.

the spy charges as fantastic.

The State Department says the couple applied for, but did not receive, U.S. passports in Moscow last year. Officials said the Sterns did not respond to a request to sign a non-Communist affidavit.

Singer in Hospital

NEW YORK — Singer Harry Belafonte is in New York Hospital for treatment of a retinal detachment of his right eye.

Belafonte entered the hospital yesterday. The actual extent of the damage to his eye and the possible need for surgery have not yet been determined. The ailment was attributed to a childhood injury.

POSES PROBLEM—Britain's Colonial office was faced with another difficult problem when reports from Georgetown, British Guiana, indicated that Communist Leader Cheddi Jagan, above, was being swept back into power as Chief Minister. Latest reports show that Jagan's People's Progressive party will win 9 of the 14 elected seats in the legislative council. Jagan was deposed as Chief Minister in 1953 for trying to foist communism on the colony. Britain's only possession on the South American continent.
